Re: Amending a Financial Assistance Agreement with the Mid-Missouri Solid Waste Management District for Front Loading Recycling Containers

Executive Summary

Authorizing the City Manager to execute an amended Financial Assistance agreement with the Mid Missouri Solid Waste Management District (MMSWMD) for the purchase of front loading recycling containers. The amendment extends the project period by six months and identifies a new project manager.

Discussion

The MMSWMD awarded the City's Solid Waste division a \$5,000 grant to purchase approximately 18 front loading recycling containers that allowed the Commercial Recycling Program to expand its services. The total cost for the containers was \$15,000 and the City's match was \$10,000. Council passed Ordinance 22616 on October 19, 2015 authorizing the execution of the grant agreement and appropriating the funds. The project period identified for this grant agreement was July 1, 2015 through December 30, 2016.

One of the requirements of the grantee is to report at least 12 months of diversion no later than 21 days from project completion. Due to turnover of the Solid Waste Minimization Supervisor and reclassification of this position during this project period, the project was delayed in getting started; therefore, staff is requesting to amend the agreement by extending the project period six months to June 30, 2017 in order to allow four quarters of diversion to be reported. The amendment also changes the project manager to the new Solid Waste Minimization Coordinator.

Fiscal Impact

Short-Term Impact: None with this amendment.

Long-Term Impact: None with this amendment.
