3/26/2018	Stephen G Boyer	1310 Broadway	Meeting	Initial project walk-through (Lee White, Nate Runyon, Maggie Jones); property owner is very receptive to the project. Talked about his back concrete patio - plan to run the alignment directly between his concrete patio and the wall/fence at the property line.
3/26/2018	Gary V & Carol A Miller	1312 Broadway	Meeting	Initial project walk-through (Lee White, Nate Runyon, Maggie Jones); Mr. Miller is very receptive to the project. He talked about his current sewer alignment that cuts through 1315/1313 on Garden Ct and connects into 1315's line before going to the MH. Very open to realignment to the east, running through the backyards of 1310 and 1. Will need to repair his brick patio and will be taking out trees (homeowner is ok with tree/shrub removal).
4/9/2018	Lynn Rossy	7 Spring Valley Rd	Phone	Ms. Rossy called regarding blue lines in the road and flags in her yard. She had also heard from a neighbor that she was told not to do landscaping work because the City would be starting construction. Maggie talked to her on the phone and explained the blue flags/markings were waterline locates. Maggie also told her that it would be unlikely that her property would be affected but to be aware we're moving forward with sewer design between her and her neighbor's yard. Maggie told her about the IP meeting coming up and that she should be receiving a letter with more info shortly.
4/23/2018	Deanne Stephens	1301 Garden Ct	Phone	Woman saying she was in Seattle area (I assume this is Deanne Stephens) called asking about the PCCE project, associated costs and project timeline. I told her that there is no cost to property owners for the new public sewer and lateral connection. I told her the timeline can vary, but if everything moves along well, hopefully we can start construction summer of 2019.
4/25/2018	Gary V & Carol A Miller	1312 Broadway	Meeting	IP Meeting - (Gary) in support of project. Confirmed that he would not have to pay anything for the project.
