

**AGENDA REPORT  
PLANNING AND ZONING COMMISSION MEETING  
April 18, 2019**

**SUMMARY**

A request by A Civil Group (agent) on behalf of Cherry Hill Dental Associates, LLC (owner) for a major amendment to the "Gadbois Professional Offices PD Plan". The applicant is requesting revisions to the permitted signage on the PD plan and the uses within the Statement of Intent. Specifically, the applicant wishes to permit a restaurant within the building that serves alcohol by the beverage, and they wish to permit additional wall signage for this tenant. **(Case #81-2019)**

**DISCUSSION**

The original Gadbois Professional Offices PD Plan was approved by Council on 11/27/2017. The applicant is seeking to revise the approved PD plan and Statement of Intent (SOI) to permit one additional wall sign on the east side of the building and to add alcohol sales by the beverage to the permitted use list. The requested revisions are a result of the applicant having interest expressed by a restaurant within the lower level tenant space of the existing building.

The 2006 SOI for the site (approved as part of the, "Premier Bank Bethel Banking Center C-P Plan") permits restaurants. Typically alcohol sales, by the beverage, would be considered a customary accessory use for a restaurant. However, the manner in which alcohol sales is addressed in the existing 2006 SOI, staff has interpreted that such sales, irrespective of the manner in which it is sold, is prohibited. As such, the applicant is seeking to amend the SOI to include all permitted uses of the M-N (Mixed-Use Neighborhood District) in accordance with Section 29-3.2 of the UDC.

The M-N district is intended to allow light commercial uses that serve their contextual residential neighborhoods. Restaurants inclusive of their customary accessory uses (i.e. alcoholic beverage sales by the drink) are permitted as a "by-right" use. Freestanding bars or nightclubs are only permitted upon issuance of a conditional use permit, which would require a separate approval process.

The applicant also indicates a desire to accommodate an additional wall sign on the eastern façade of the building for the proposed restaurant. Currently this façade has a 64 square foot sign devoted to Cherry Hill Dental - the maximum allowed. To accommodate the desired sign, the applicant would remove the existing freestanding monument sign on Diego Drive upon installation of the additional wall sign. The existing monument sign is double-sided and contains a total of 96 square feet of sign area. The requested additional wall sign would be 48 square feet. If this request is approved, the overall site signage would be reduced. Additionally, it should be noted that the total wall sign area (112 square feet) on the building's eastern façade is only approximately one-quarter (¼) of that permitted (15% of the wall surface) for typical commercial buildings. The existing 64 square foot limitation is due to the development site being located along a restricted roadway frontage (i.e. Nifong Boulevard).

Given the overall site signage reduction, staff considers the applicant's proposed elimination of the freestanding double-sided sign for the single wall-mounted sign appropriate. Furthermore, given the similarity of the uses permitted between the original PD statement of intent and those allowed within the M-N zoning district coupled with the restrictions on bars and nightclubs, staff believes the requested SOI revision is reasonable.

**RECOMMENDATION**

Approve the signage and SOI revisions to the "Gadbois Professional Offices PD Plan".
