

TO WHOM IT MAY CONCERN

We are against the development of Property
on 28.84 acres (case 16-196)

1. Sewer - may cause Problems
2. Traffic - All ready a Problem
3. Trees - Will be destroyed
4. Wildlife - Does anybody care

They want to put the street that enters the
subdivision right across from our driveway
that is at the bottom of two hills.

How much Property will be disturbed and
it will cause a traffic Problem along
highway P.P.

There are some trees there that are 75-100
years old.

There are ~~to~~ 10-15 deer that live there
all year round

Your Neighbors on P.P,

Charles + Carolyn Lohse

3821 N. Highway P.P

Columbia, Mo. 65202

City of Columbia
Community Development Department

This property has been in the "Griffin" family since early sixties. The house burnt in 1963, so not wanting to leave this area, they decided to rebuild.

We have had family & friend tell us it's so quiet & peaceful here without lots of traffic. We have wonderful neighbors.

We have lots of deer & deer crossing; we want to protect them ^{from} increase traffic and increase of taxes. They are running out of places to live, it's nothing to have deer in our yard 2 to 3 times a week. we want to keep them safe if we can.

We really don't want a new development right across the road.

Mrs Griffin
