Property owner along Providence and Burnam  
???? ?th Street  
Columbia, MO 652??

Dear Neighbor:

Delta Gamma is proceeding with reconstruction of their sorority house this upcoming year. Due to the deep excavations and utility work on the property, we are requesting closure of the sidewalks along Providence and Burnam Avenue that abut their property.

The project will start in late May 2016 and extend through August of 2017.

Please see the attached traffic control plan showing how the pedestrian foot traffic will be rerouted during that time.

If you have questions or concerns about this, please contact Scott Wallace with Little Dixie construction at 573-449-7200. Any other concerns may presented in writing to the Director of Public works. We appreciate your understanding and cooperation throughout this process, as many of you have needed similar closures in the past or will require similar closures in the future.

Sincerely,

Crockett Engineering Consultants, LLC
