27.9.9 Geographic Directions as Part of Road Names. Geographic directions shall not be used as part of the road name. While these do exist, such as Southgate St, North Shore Dr, South Cedar Lake Dr, Waterfront Dr South, or Southwest Way, this practice shall be avoided in future developments. To eliminate confusion, the use of north, south, east, west, and any variations shall be reserved for prefix use only. For example, when verbally giving an address, it would be impossible to distinguish between Northshore Dr and N Shore Dr.

27.9.10 Road Types as Part of Road Names. A road type shall not be used as part of the root road name even if included in a proposed compound root road name. For example, a road named Dustytrail Dr shall not be allowed since Trail and Drive are both road types. Section 27.10 covers the standard for road abbreviations types for Avenue, Court, Ridge, and Boulevard.

27.9.11 Road Name Continuity. Road name continuity is the consistent retention of one road name for the length of the road. This is not to be confused with road name duplication. Road name continuity shall be used when possible. A road with a gap should maintain the same name across the gap, as long as the road continues on the same alignment after the gap. (See E Ash St, 27.9 Figure 1).

27.9 Figure 1 – Road Name Continuity

If the road shifts off-alignment by more than 200 feet, a new road name shall be assigned. Roads that continue beyond an intersection and dead-end as courts shall be named with the same root name as the main road but designated as a Court (See St James Dr and St James Ct, 27.9 Figure 1).

27.9.12 Intersecting Road. Roads shall not cross or meet more than twice.

27.9.13 Consistent Road Name Spelling. Any new segment to an existing road shall be spelled consistent with the road name being extended provided the existing road name is in compliance with this section.
