Re: Safety and Security Enhancements to Sanford-Kimpton Building

Executive Summary

An ordinance authorizing a transfer of funds for safety and security enhancements to the Sanford-Kimpton Building.

Discussion

Public Health and Human Services (PHHS) has been housed at the Sanford-Kimpton building at 1005 W. Worley since May, 2004. At that time, PHHS had approximately 65 employees. PHHS now has 104 employees. In order to accommodate this growth, PHHS has undertaken a renovation project which is being implemented in phases. This project will reconfigure the existing square footage to increase space for up to 121 employees. Safety and security for staff and customers will also be improved by enhancing the safety of customer reception areas and by further restricting public access to clinical and staff areas. Recent safety and security incidents in which customers have accessed staff areas have highlighted the need to quickly address the physical security issues.

The majority of this project is being funded by a contract with the Missouri Department of Health and Senior Services. However, the funding is not sufficient to cover the cost of the entirety of the physical safety and security improvements. Therefore, PHHS is requesting a one-time transfer from the General Fund fund balance of \$85,000.00.

Fiscal Impact

Short-Term Impact: \$85,000.00

Long-Term Impact: None.

Strategic & Comprehensive Plan Impact
