### Comments:

The turn into Vineyards traveling south on Rolling hills is very dangerous - snow plows, school buses, moving vans, lawn mower guys with trailers ALL hit the curb (which just got replaced AGAIN) on that island. It is a huge safety hazard.  
Also - there are numerous broken curbs all over Plat 2 (the area here by school) that need repair.

## **Crosswalk access**

It would be nice if the project could include a pedestrian crosswalk at Columbia Gorge and August Brigg intersection (or move the plan crosswalk up - since there is no sidewalk on the opposite side of the Columbia gorge currently).

## **Sidewalk? Yes, but not as a developer handout.**

This is a brand new development and the lot with the planned sidewalk is owned by the homeowners association. I sincerely hope that either the developer or the HOA paid the City to do this work.

If this work has been paid for in this manner, I am very much in favor of closing this sidewalk gap.
