

this plan over the past three years. He did not think there was anything about the plan that the Association was not consulted about. Mr. Casick said they also felt the private agreement was fair, equitable, and it would serve both sides to their advantage. The Chapel Hill Lake Homeowners Association were in support of the applicant's request.

Mr. Kruse congratulated the neighborhood association on a job well done. He asked if there was any discussion about the possible use of neon lighting on the buildings. Mr. Casick believed there was a provision in the agreement regarding the direction of the lighting and the brightness at the border of the development. Mr. Kruse thought that was for the street lighting. Mr. Casick said that was correct. Mr. Kruse said he did not see anything that would preclude a store from wrapping itself in neon lights. Mr. Casick agreed. Mr. Kruse said he would not like to see a lot of bright, neon lights on buildings. Mr. Campbell reminded Mr. Kruse that the Council only had the City agreement in front of them. Mr. Campbell remembered some discussion regarding the brightness and the direction of lighting. Mr. Casick read from their agreement the stipulations regarding signage within the development.

Dr. George Gibb, owner of the office building to the north of the subject property, said he was pleased with the plan. He said it was a good plan and something they could be proud of.

Mayor Hindman closed the public hearing.

Mr. Campbell noted that both sides had been very willing to negotiate. He said this may not be ideal from anyone's perspective, but it was something everybody could live with. He complimented both sides.

Mrs. Crockett said she was grateful that Mr. Campbell had volunteered to work with both sides as it made the Council's job a lot easier.
