SELECTED PROJECTS - FULL LIST

PROJECT TITLE	AWARE	INFORMED	ENGAGED
Municipal Services Center Development	96	58	3

Dave-Robin

Infrastructure Needs First

Roundabout and roads need to be enlarged to accommodate city trucks, school traffic and "rush hour" cars. Ideally this happens before the service center is launched.

Aesthetics

The service center will be an eyesore because it is close to the school and residential areas. Please consider establishing an evergreen tree line to camouflage the center from the school and along Sinclair Road.

Location

We attended the open house. The talking points and diagrams both focused on salt storage. We may be wrong, but we believe citizens don't realize that plans include storage of snow plows. Unfortunate that the city did not purchase scrub land on the outskirts of town e.g., Scott/Vawter School roundabout

Concerned Neighbor

Noise Pollution

Please consider how the trucks will be loaded so neighbors are not disrupted by beeping equipment all night long.

Concerned Neighbor

Minimize Eyesore - keep our City beautiful

Minimize height of salt dome so it's not seen by neighbors near and far, and consider a color that blends well with nature. Please do not clear trees and brush behind/south side of the proposed salt dome to help block the view of this structure. There are many trees and brush cover in the area that some would say have no value unless you are an abutting neighbor. Respectfully requesting this natural cover can be preserved. Thanks for the consideration.

Concerned Neighbor

Open House 3/6 - No one could answer questions.

Not one City representative was informed enough to answer even basic questions, or possibly took the position "We don't know." to avoid answering to the public (?). Extremely disappointed in the lack of knowledge demonstrated by those representing the City including the 5th Ward Council member. No one could definitively point out property lines and was not familiar with the housing development abutting the project boundaries, other than stating "there are houses back there"; was unable to provide approximate height or color of the salt dome. It is unclear how the City can state there will not be significant adverse impacts on any lands abutting the proposed plat, or to the owners of those lands when there did not appear to be any consideration of abutting landowners. The City representatives could not answer how visible the dome would be to nearby landowners or provide how far it would sit from the property line.
