Council Meeting Date: April 21, 2025

Re: Missouri Department of Health and Senior Services Disease Intervention Specialist Workforce Program Contract

Executive Summary

An ordinance authorizing the City Manager to sign the Disease Intervention Specialist Workforce Program Contract between the City of Columbia and the Missouri Department of Health and Human Services for the period of January 1, 2025 through December 31, 2025.

Discussion

The Missouri Department of Health and Senior Services contracts with Local Public Health Agencies for the provision of communicable disease intervention. The purpose of the sexually transmitted disease (STD) prevention and control strategies activities are to prevent and control chlamydia, gonorrhea, syphilis and other communicable diseases according to the Centers for Disease Control and Prevention (CDC) STD Prevention and Control grant.

This contract provides funding for Public Health and Human Services to provide STD prevention and control services, such as initiating and completing investigations on reportable STD/HIV infections, provide disease education, and perform field investigations. This contract supports Public Health and Human Services' capacity to respond to cases and identify close contacts for testing and/or treatment. PHHS provides these services in both Boone and Callaway Counties. This new Disease Intervention Specialist Workforce contract expands the service region to 37 counties in the North Central Missouri region which aligns with our HIV Prevention contract and our Case Management contract. They have increased our previous budget by \$10,000 to assist with the mileage increase.

This contract renewal period is January 1, 2025-December 31, 2025 with a contract amount of \$401,065.82.

Fiscal Impact

Short-Term Impact: None, this is grant funded

Long-Term Impact: None
