I am interested in serving On columbia City council . It would be nice to have some diversity on the board. Also will give the community A new face On the council. I have lived in columbia missouri for fifteen years and in that time me and my wife have been Raising four young men, One that has graduated from Battle high With Honors. I feel my role on the council Can make an impact because of the work I do in the community and how I see the real Columbia daily . From the homeless community needing assistance with their day to day life Having a safe. And consistent place to stay Nightly Or even documents that they need To operate in the world such as I d's and Birth certificates.

Communication is the key to a lot of these issues we have in our city. The experience I have in the city makes me qualified to be a council member. I feel I can relate to the average city resident because I have worked most Levels in Columbia from a janitor at Ellis Fischel to bookMobile driver for the Is Daniel Boone Library. Over the years I have noticed things that Columbia needed and problems that needed to be addressed. More emphasis needs to be put on family and community trust and growth.

The Increase in domestic violence and Different problems in our school system made me Want to know more about Finding a solution. So I enrolled and got Certified allowing me to facilitate domestic violence classes and also Training in early childhood development so I can have a better idea of what today's kids need and their day to day issues.

My availability is vast when the needs of my community are involved. You have to get your hands on what's going on to know as much about the outreach programs in Columbia and the surrounding areas. These are resources I would utilize for the city council. Another Items that need to be addressed in upcoming meetings. Are Important issues like. Community hunger and gun violence I feel more training sessions about health. Eating and budgeting could help local food assistance programs go farther also.

More gun control. Community training about these issues. We have a chance to make a big change in the city with all the new rules and funding. Going around the right people need a voice in this conversation.
