I am very excited to see a pedestrian access improvement to that section of Broadway. I believe this development should continue west, when funds become available, all the way to Garth to provide safety to everyone including the students at Grant Elementary.

I like the current design and applaud the addition of permeable surfaces and trees. Would it be possible to add shrubs to the median island as well?

I think you will see increase pedestrian traffic on Broadway coming from the neighborhoods west of Providence as you make the access more pleasant and safer.

Appreciate the hard work of all city employees.

The congregation of Second Baptist Church, which is located on the corner of 4th and Broadway, enthusiastically supports the vision for this project. Our sanctuary was completed in 1894 and each generation has recognized the increasing danger of crossing this intersection, not only for our parishoners but also for anyone who wishes to access the restaurants and businesses on the other side of Broadway. We look forward to the beautification of this area and the enhanced pedestrian safety
