Council Meeting Date: February 15, 2016

Re: Professional Engineering Services Agreement with Allstate Consultants for the Design of the Sinclair Road Drainage Culvert at Mill Creek

Executive Summary

Authorizing an agreement with Allstate Consultants of Columbia, Missouri in the amount of \$43,000 to provide professional engineering services for the design of a replacement culvert for Sinclair Road at Mill Creek. (See attached agreement and scope of services.) Allstate was selected for this project in accordance with the City's professional consultant procurement guidelines.

Discussion

The existing culverts under Sinclair Road at Mill Creek are badly-rusted, 60-inch diameter, corrugated metal pipes. The existing pipes are completely rusted through and starting to deform. Staff considers replacement of this culvert to be a high priority due to the possible failure and resulting loss of the roadway.

Allstate Consultants has been selected for this project in accordance with the City's professional consultant procurement guidelines based upon their understanding of the project requirements and their experience with similar projects. Utilizing Allstate Consultants to prepare the design and address all the pertinent regulatory concerns will allow this project to be bid and constructed very soon after the construction funding is appropriated with FY 2017 budget.

Fiscal Impact

Short-Term Impact: The engineering contract is for a not-to-exceed amount of \$43,000 and will be paid from Stormwater Utility funds.

Long-Term Impact: The total project cost is estimated to be \$455,000.

Vision & Strategic Plan Impact

Vision Impacts:

Primary Impact: Transportation, Secondary Impact: Community Facilities & Services, Tertiary Impact: Not Applicable
