  - Final Public Presentation of the Budget Sept 15

# Government Accounting

#### **Fund Accounting**

- Fund accounting is a specialized accounting system, used primarily by governments, that focuses on accountability over profitability. The primary goal is to track and control the use of financial resources, ensuring that money is used for its intended purposes.
- Resources are divided into "funds" each with its own purpose, restrictions, and legal requirements. Each fund has its own revenues, expenses, assets, liabilities, and fund balance.

## **Fund Accounting**

- Transfers between funds are internal reallocations of resources, not external revenues or expenses.
- Key reasons for fund transfers under the Governmental Accounting Standards Board (GASB) include:
  - Support Operations
  - Fund Capital Projects
  - Debt Service
  - Compliance with Legal or Grant Requirements
  - Reimbursement for Services

## **Private Sector Accounting**

#### **Company A**

Administration
HR
Finance
Legal
Goods and Services

## **Government (Fund) Accounting**

**General Fund** Administration

HR Finance Legal

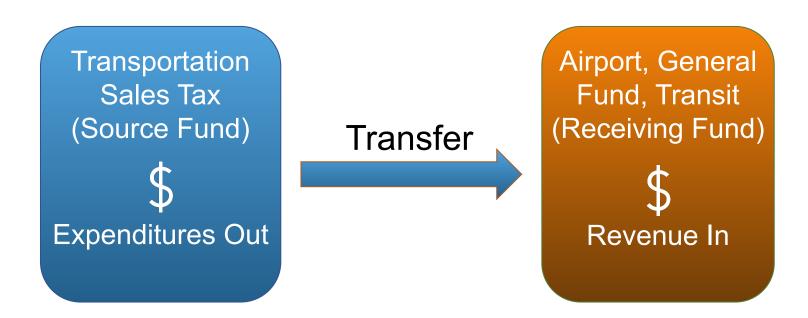

City of Columbia

**Enterprise Fund** Electric Water Stormwater Solid Waste

Internal Service Fund 1.T. Fleet Self Insurance **VERF** 

**Special Revenue Fund** Parks and Rec CIP Sales Tax Transportation Sales Tax

## **Fund Transfers – How They Work**

Transfers reallocate existing resources between funds.
