Council Meeting Date: August 1, 2016

Re: License Agreement with City of Ashland Granting Access across Columbia Regional Airport Property

Executive Summary

Authorizing the City Manager execute a license agreement between the City of Columbia and the City of Ashland, granting access to and from a roadway easement to be acquired by the City of Ashland, for access to a pump station and force main near Columbia Regional Airport.

Discussion

Staff is requesting the City Manager execute a license agreement with the City of Ashland for the sole purpose of ingress and egress access over and across City-owned property for the construction and maintenance of a pump station and force main. Because this area is used for airport purposes, and subject to security requirements, the City of Columbia retains the right to impose reasonable security restrictions and verify background security checks on anyone who is granted access to any secure area of the Columbia Regional Airport property. The license agreement is granted for an unlimited term; however, if the City of Columbia decides to revoke the license agreement, a one year advance written notice is required.

Fiscal Impact

Short-Term Impact: None

Long-Term Impact: None
