To: City of Columbia - Community Development Department
Attn: Rachel Bacon

My wife and I recently purchased the property at [5705 E. Mexico Gravel Road](#). The prior owner, Pat Fitzgerald, is currently in the process of pursuing annexation and hookup into the city sewer along with the necessary work required to do so, being a condition of the sale. We have reviewed his plans and are supportive of both hookup options, with no preference. We are fully on board and are seeking annexation to accommodate this work and arrangement, resulting in the property being zoned R-1. Per our arrangement, following annexation, Pat will contract and pay for the work necessary to hook up to the sewer.

Thank you for your time and consideration,

- Derek Zimmermann
