

NOTE:  
 STREET LIGHT SPACING VARIES BETWEEN 140 FT TO 160 FT APART  
 BASED ON THE STREET LIGHTS ON DERBY RIDGE DRIVE SOUTH OF E.  
 BROWN SCHOOL ROAD. AVOID ANY UNDERGROUND UTILITIES ON  
 LIGHTING PLANS.  
 RECOMMEND THE STREET LIGHTS BE LOCATED ON THE WEST SIDE  
 BETWEEN THE BACK OF CURB AND THE SIDEWALK.  
 THERE IS A 8" PVC WATER LINE ON THE EAST SIDE THAT LIGHT  
 POLES MIGHT CONFLICT WITH.
