

**ADMINISTRATIVE PUBLIC IMPROVEMENT PROJECT**

Project name and brief description: Stephens Lake Park: Spraygrounds Ultraviolet (UV) System Replacement – The Parks and Recreation Department is proposing to use force account labor to replace the UV system at the spraygrounds at Stephens Lake Park. The existing UV system was installed approximately 9 years ago and is in need of replacement due to age, current operating issues and improvements in system technology. UV systems in spraygrounds function as a secondary sanitation method to assist in the elimination of chlorine resistant pathogens in the water. Park staff will competitively bid the UV system and complete the installation of the equipment at the spraygrounds. As budgeted in the City’s FY-2019 CIP, the replacement of the UV system will be funded by the 2015 Park Sales Tax. The installation of the new UV system will be completed before the spring opening of the spraygrounds on May 1, 2019.

Department: Parks and Recreation

Estimated cost: \$25,000

Funding source: Park Sales Tax

Project meets the following criterion (check one):

- Construction, upgrade or relocation of electric distribution lines less than sixty-nine (69) KV that is estimated to cost less than one million dollars (\$1,000,000.00).
- Water and electric production facility expansion projects estimated to cost less than five hundred thousand dollars (\$500,000.00).
- Sanitary sewer projects estimated to cost less than one hundred fifty thousand dollars (\$150,000.00).
- Storm water utility public improvement projects estimated to cost less than one hundred fifty thousand dollars (\$150,000.00).
- Any project estimated to cost less than fifty thousand dollars (\$50,000.00).

No tax bills will be issued for the project.

Project does not require exercise of power of eminent domain.
