The contractor is entitled to charge their negotiated rate. If you have an approved negotiated rate please contact (DIS Program Coordinator) as we will need to modify this document to allow the proper calculation of Indirect Cost. In lieu of using their federally negotiated indirect cost rate or if you do not have an approved federally negotiated rate, the contractor may opt to accept an indirect cost rate up to 10% of the modified total direct costs or the contractor may waive charging indirect costs. The alternative method cannot result in more indirect earnings for the contractor than their negotiated rate. If taking less than 10% MTDC for indirect please enter the percent into cell J40.
