	711 Bluff Dale Dr	Brian & Michelle Johnstone	"	3/18/19 Mr. Johnstone was one of a group of people who met on Bluff Dale, also including Councilperson Peters, former Councilperson Hoppe, and staff, to discuss the rehab of the pipe near 711 Bluff Dale. Staff noted the depth of the pipe (~12' near the fronts of houses), proximity to adjacent houses and large trees in the path as reasons to use a pipe-lining approach. Staff noted that a spin-cast concrete liner should have a similar life-span as a concrete pipe; ~80 years.	N

Rollins at Brewer			4/17/2019		
	703 Kingsbury	Don Strata	"	~4/23/19: Mr. Strata called asking about project. He noted that he is trying to sell his place and the importance of the landscaping that has been done on his place as well as common ground. I told him he would probably have his place sold by the time we get there. 4/29/19: Set up mtng to discuss with Mr. Strata on 5/1 at the site. 5/1/19: Met Mr. Strata and Jack Dothage (HOA officer) at Mr. Strata's lot to look at spot where the pipe from Rollins exits. Explained the processes that were under consideration. It was noted that we don't have storm drainage easement in Mr. Strata's yard where the pipe empties.	N

	4206 Rollins	Don Short	"	4/29/10: Returned Mr. Short's call to explain goal of project; line pipe and avoid digging. Explained that lining was preference but if it isn't feasible, we might have to dig up and replace at some point.	N
