Yes - the registrant uses the residence during football season to attend Missou games and visit with family, for a total of 5-7 weekends (15-20 days).

- (B) Whether or not there are established STRs within 300 feet of the proposed STR measured in all directions from property lines "as the crow flies".

To the best of our knowledge, there is not currently an established STR within 300 feet of the subject residence.

- (C) Whether the proposed registrant has previously operated an STR and if such operation has resulted in a history of complaints, a denied STR certificate of compliance, or revocation of an issued STR certificate of compliance.

No, the registrant has not previously operated an STR.

- (D) Whether the proposed STR will increase the intensity of the use of the property and cause increased traffic or noise coming from the property.

No, the STR will not increase intensity noise level. It will be used in a manner consistent with a SF home, where guests will be expected to respect quiet hours and neighborhood standards.

- (E) Whether there is support for the establishment of the proposed STR from neighboring property owners.

The neighbors are not aware of the STR plan but we maintain positive relationships with them and do not anticipate opposition. We plan to communicate proactively with them
