To: City Council

From: City Manager & Staff

Council Meeting Date: August 7, 2017

Re: Authorizing an agreement with Alamosa Missouri Properties to install, operate and maintain telecommunication equipment at the Columbia Regional Airport.

Executive Summary

Staff has prepared for Council consideration an agreement with Alamosa Missouri Properties to lease a portion of the exterior roof area of the Airport terminal to expand telecommunication coverage.

Discussion

The proposed agreement would allow Alamosa (Sprint) to install antennas on the roof of the main airport terminal. These antennas will enhance the connectivity of the American Airlines baggage scanners on the ramp. These scanners are utilized to ensure that commercial passenger bags are correctly identified and properly tracked within the reservation system. This enhancement of wireless coverage is limited to the parking area on the ramp for both American Airlines aircraft. This will also provide an additional revenue of \$250.00 per month, plus \$20.00 per month towards utilities that will be paid to the airport.

Fiscal Impact

Short-Term Impact:

Long-Term Impact: Monthly rent charges of \$270.00 per month to the Airport Fund

Vision & Strategic Plan Impact

[Vision Impacts:](#)
