

Natural Resource Areas are lands set aside for the preservation of significant natural resources, remnant landscapes, open space, and visual aesthetics/buffering. These natural areas can come in the form of natural drainage ways, creeks, wetlands,

river greenway areas, habitat protection areas, steep hillsides, significant tree clusters or plant materials, or where the preservation of an open space area provides a

visual relief from the images of the built and urbanized environment.

Developed Parks typically have more amenities such as playgrounds, pavilions, basketball courts and possibly restrooms and parking lots.

Legend:
 - City Limits (thin green line)
 - Columbia Metropolitan Planning Area (thick green line)
 - City Parks (green fill)
 - City Natural Area (yellow fill)
 - Other Government Owned Natural Area (light green fill)
 - Existing Trails (orange dashed line)
 - Trails Under Construction (red dashed line)
 - Schools (blue square with 'S')
