CITY OF COLUMBIA DOWNTOWN STREET LIGHTING PROJECT

FY 2016

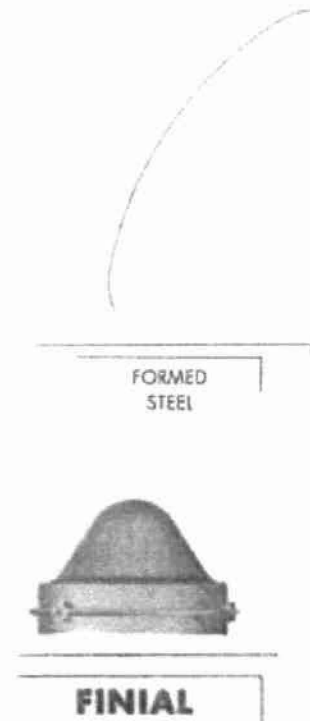

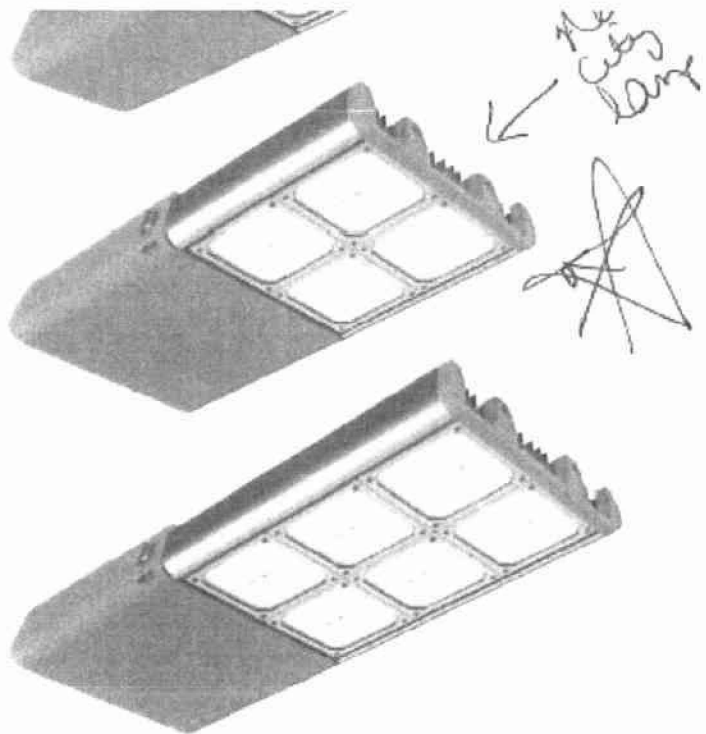

- The City of Columbia has \$100k budgeted for Downtown Improvements for FY2016.
- The Operations Committee has met several times with Ryan Williams, City of Columbia Power and Light, to discuss options for the funding.
- The recommendation is for the City to replace 50 downtown street lights.
  - There are currently 435 street lights downtown
  - Cost \$2k per light to replace
  - Williams recommends replacing 50 lights this year, and requesting that City fund replacing the balance of lights in FY2017
  - CPD helped identify 50 high priority street lights to replace first
- The Operations Committee also recommends that \$10k of Downtown CID funding be allocated towards the project, in order to upgrade the lighting to increase intensity/lighting levels during the bar closing time period. This will require Council approval.

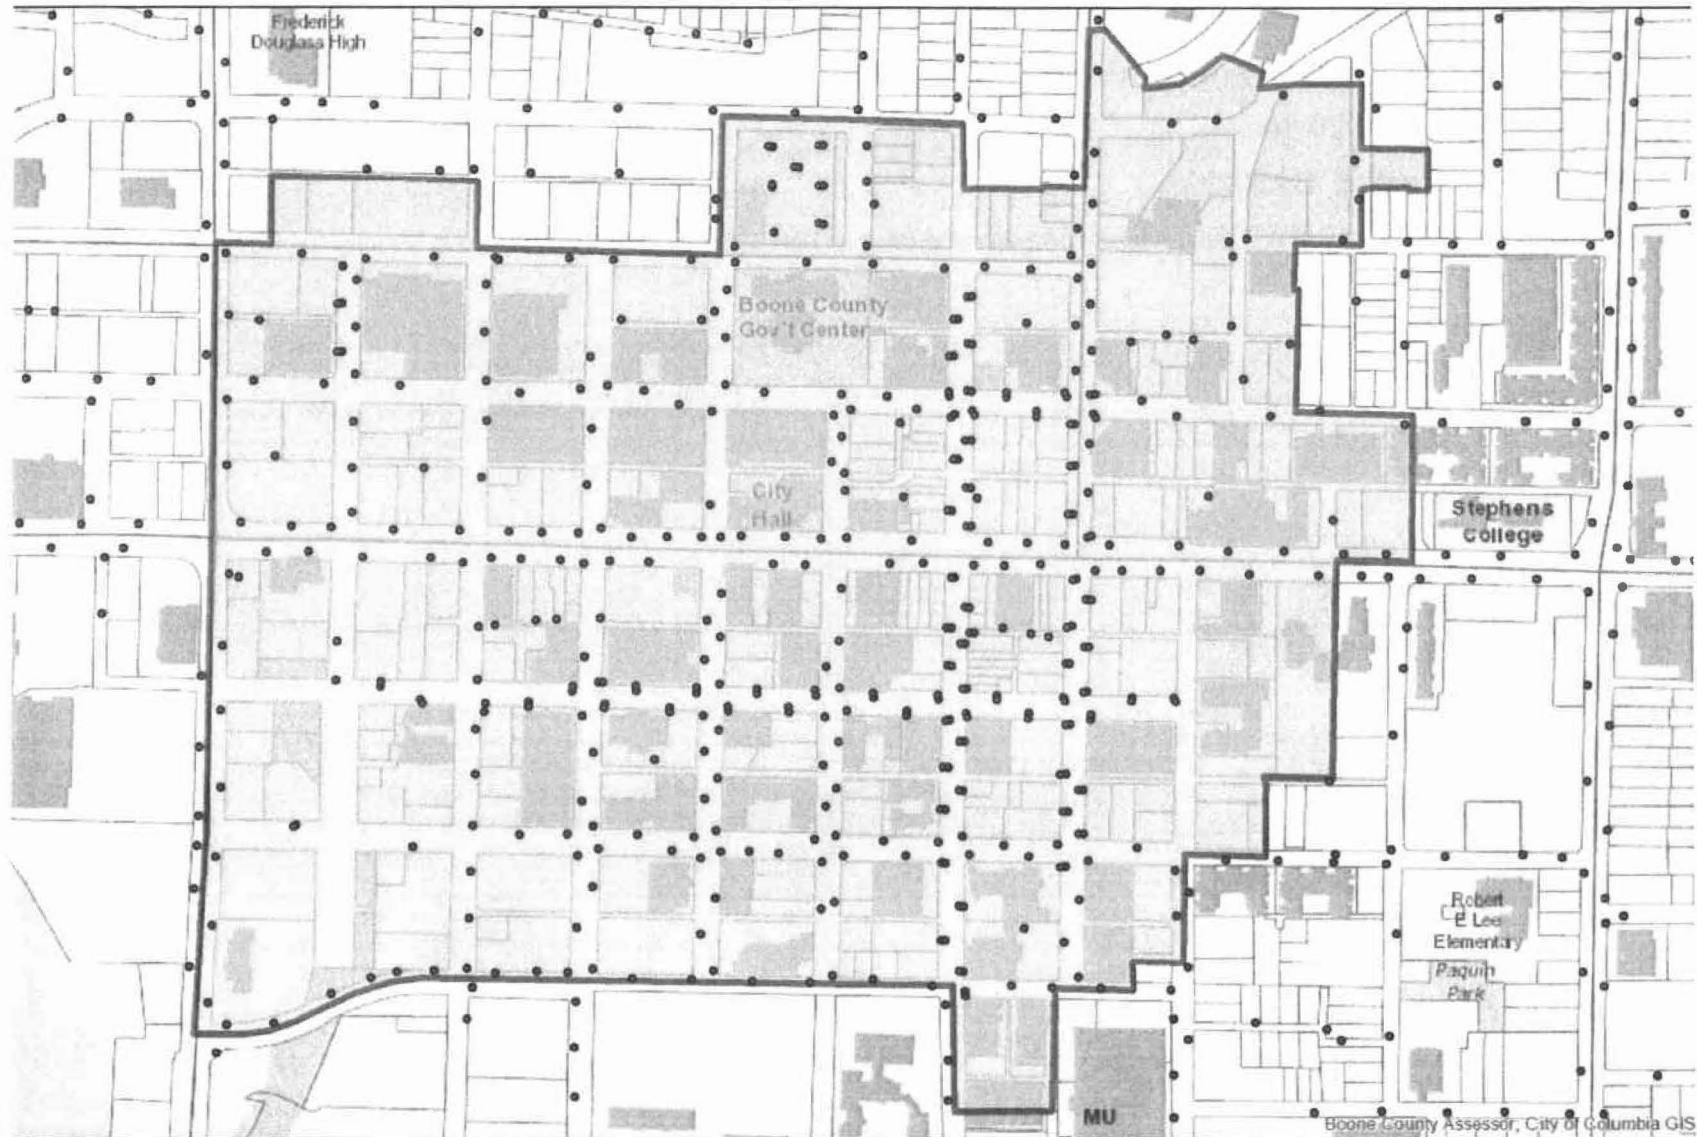

• Recommended lighting fixture:

- LED, Life Expectancy of 20 years (versus 5 years before)
- Use 213 watts vs. 250 watts for old lights.
- Available in 3000 Kelvin, warmer level
- Powder-Coated Black Poles
- Currently installed at Tenth and Broadway and around District Flats

## Community Improvement District Street Light Inventory

- The Downtown CID has \$20k remaining in the 2016FY budget for public safety labor and \$10k remaining for public safety programming/ equipment and lighting. (Total \$30k)
- Cost to add new pole/light \$12k per pole, due to need of running electricity.
- CPD identified areas downtown that would benefit from adding new lighting. Could afford 6 locations.
  - Near Flatbranch Park (will Parks and Rec upgrade or replace fixture?)
  - Near North Village Arts District
  - Near Brookside
