

A RESOLUTION

setting a public hearing; declaring the necessity for the proposed construction of the Landfill Fuel Station improvement project located at 5700 Peabody Road to include the installation of two (2) diesel fuel dispensers and metal canopy with lights, concrete pavement, storm water inlet and piping, and upgrades to the mechanical and electrical systems and existing control and fuel monitoring equipment; stating the nature of and the estimate of the cost of the proposed improvement; providing source of funds for payment for the proposed improvement; and providing for compliance with the prevailing wage law.

WHEREAS, an online interested parties meeting was held from April 9, 2021 through April 23, 2021 and an in-person interested parties meeting was held on August 12, 2021 by the City Utilities Department – Solid Waste Division for the proposed construction of the Landfill Fuel Station improvement project located at 5700 Peabody Road to include the installation of two (2) diesel fuel dispensers and metal canopy with lights, concrete pavement, storm water inlet and piping, and upgrades to the mechanical and electrical systems and existing control and fuel monitoring equipment.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF COLUMBIA, MISSOURI, AS FOLLOWS:

SECTION 1. A public hearing in respect to the proposed public improvements set forth herein will be held in the Council Chamber of the City Hall Building, 701 E. Broadway, Columbia, Missouri, at 7:00 p.m. on October 4, 2021. The City Clerk shall cause notice of this hearing to be published in a newspaper published in the City.

SECTION 2. The City Council deems the proposed construction of the Landfill Fuel Station improvement project located at 5700 Peabody Road, necessary to the welfare and improvement of the City but desires to hear from the public prior to taking further action to authorize construction of the project. Specific improvements include the following:

1. Installation of two (2) diesel fuel dispensers containing two (2) nozzles per dispenser.
2. Installation of a 32-foot by 71-foot metal canopy with lights over the added fuel dispensers.
3. Construction of approximately 11,000 square feet of concrete pavement.

4. Installation of a storm water inlet and piping.
5. Upgrading mechanical and electrical systems.
6. Upgrading existing control and fuel monitoring equipment.

SECTION 3. The nature and scope of the proposed improvement shall consist of furnishing all labor, materials, transportation, insurance and all other items, accessories and incidentals thereto necessary for the complete construction of the improvements. Following the public hearing the City Council shall determine whether it is in the public interest to make the proposed public improvements or any part thereof.

SECTION 4. The estimated cost of this proposed improvement is \$450,000.00.

SECTION 5. Payment for this proposed improvement shall be made from Solid Waste Utility enterprise revenue funds and such other funds as may be lawfully appropriated.

SECTION 6. Any work done in connection with the construction of the proposed improvement specified above shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri.

ADOPTED this _____ day of _____, 2021.
