From: City Manager & Staff

Council Meeting Date: August 5, 2019

Re: An ordinance authorizing the City Manager to execute Downtown Streetlighting Replacement Agreement with the Downtown Community Improvement District and the appropriation of \$30,000 to E0180.

Executive Summary

Staff has prepared for Council consideration an ordinance authorizing the City Manager to execute a Downtown Streetlighting Replacement Agreement with the Downtown Community Improvement District and the appropriation of \$30,000 to E0180.

Discussion

The City of Columbia and the Downtown Community Improvement District (CID) have developed a partnership for the replacement of streetlights in downtown Columbia. Capital Improvement project E0180 has been established for the replacement of street lights located in downtown Columbia. The new street lights will include an advanced photocell controller attached to the luminaire on the lower sidewalk arm with the ability to be dimmed and brightened on a separate schedule from the upper street side luminaire. A Public Hearing for this project was held on April 15, 2019.

The CID has offered to cover the cost associated with the advanced photocell controllers for the project, up to \$30,000 as mentioned in their letter of support presented at the Public Hearing. This agreement outlines the CID's commitment to the funding for the advanced photocell controllers.

Staff recommends authorizing the City Manager to execute a Downtown Streetlighting Replacement Agreement with the Downtown Community Improvement District and the appropriation of \$30,000 to E0180.

Fiscal Impact

Short-Term Impact: Appropriation of \$30,000 to E0180

Long-Term Impact: None
