

TO: Tad Johnsen, Water and Light Director

From: John Betz, Chair, Source Water Protection Plan Task Force

Date: February 26, 2016

Re: Task Force Update Report

There were no actions carried out by the Source Water Protection committee in calendar year 2015. With the exception of public outreach activities, the department has taken care of a majority of the action items listed in the Source Water Protection Plan.

The committee was scheduled to hold its annual meeting this week but was unable to meet the required quorum. We will try meeting again on March 10. At the time, we'll discuss the public outreach efforts once more.
