Dear Mr. Nichols,

I am writing on behalf of the CID Board of Directors to express our tentative support for the Bird Scooters returning to the streets of The District.

While we always want to encourage projects that bring customers and life to our district, we request Bird and the City of Columbia to work with our CID board during implementation to resolve particular concerns. We want to be involved in the placement of the "nests", timing of when Birds are operational, functioning speeds in certain areas in The District, and any other operational concerns District businesses may have.

We seek a safe and fun environment for our businesses and their customers. We will need to be involved in these concerns before we can give our full support. Should the City of Columbia and Bird Scooters come to an agreement, we will happily move forward and begin working on this together.

Many thanks,
