Market Area Boundaries, Description, and Market Conditions (including support for the above characteristics and trends): Boundaries include Providence Road to the west, Business Loop 70 is north, College Avenue is east, and Park Avenue is south. The area typically includes a mix of older homes in single family use as well as some multifamily properties. Appeal is good as home prices in this area appeal to first time home buyers. The area is near 100% developed. Columbia College is located within the neighborhood. The central business district of Columbia is located just south of the subject neighborhood. The proximity of the subject's neighborhood to the CBD is an appealing factor. Property values have increased in this neighborhood over the 12 months. Demand is strong while supply is currently low.																																																																																																																																																																				
DETAILED DESCRIPTION	Dimensions: 140' x 55'		Site Area: 7,700 Sq.Ft.																																																																																																																																																																	
	Zoning Classification: R-MF		Description: Moderate Density Residential																																																																																																																																																																	
	Zoning Compliance: <input checked="" type="checkbox"/> Legal <input type="checkbox"/> Legal nonconforming (grandfathered) <input type="checkbox"/> Illegal <input type="checkbox"/> No zoning																																																																																																																																																																			
Are CC&Rs applicable? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Unknown Have the documents been reviewed? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Ground Rent (if applicable) \$ _____ / _____																																																																																																																																																																				
Comments: None provided.																																																																																																																																																																				
Highest & Best Use as improved: <input checked="" type="checkbox"/> Present use, or <input type="checkbox"/> Other use (explain) Duplex Use																																																																																																																																																																				
Actual Use as of Effective Date: Duplex Use as appraised in this report: Duplex																																																																																																																																																																				
Summary of Highest & Best Use: The subject is improved with a two-family dwelling. Neither the demolition of the existing improvements and redevelopment of the subject site nor modification of the existing improvements would result in a higher return to the land than is currently being achieved. The existing two-family use is therefore concluded to be the highest and best use as improved.

Site Comments: The subject fronts on the west side of Fifth Street. The terrain of the property is near level. The site is mostly open with some mature trees at the west part of the site. Douglas Park, a public park maintained by the City of Columbia, is located west and north of the subject. A mix of older single-family and multi-family dwellings are located east and south of the subject. The Columbia CBD is located further to the south.

2-4 UNIT RESIDENTIAL APPRAISAL REPORT

File No.: R2307008

IMPROVEMENTS (cont.): Additional features: Interior amenities in each unit includes a mix of vinyl and laminate flooring throughout, formica kitchen countertops and a fiberglass tub. A Covered porch is present at the rear of the dwelling and is accessible from Unit 2. The front entry is also covered.

Describe the condition of the property (including physical, functional and external obsolescence): The windows appear to have been replaced at some time, however, it is unknown when this update occurred. The flooring in both units and water heater in Unit 1 have been replaced. Other finishes are older with some nearing the end of their economic life. A broken window pane on the south elevation and some cracks in the drywall were observed. An area of deterioration of the floor in Unit 1 was observed in the living room area. No other signs of settlement were observed and I have assumed the foundation is sound and stable. The subject's layout is somewhat atypical where access to the bathroom and kitchen of each unit is through the bedroom. Given the size of each unit this factor has a nominal impact on the property.

The following properties are representative current, similar, and proximate rental properties comparable to the subject property. This analysis is intended to support the opinion of the market rent for the subject property.

Indicated Monthly Market Rent		\$ 600		\$ 650		\$ 650	

Analysis of rental data: Comparable 1 is located north of the subject. This comparable is similar to the subject in size and condition. A similar rent rate is supportable for the subject. Comparable 2 is located within the CBD with a superior location appeal. Comparable 2 is superior to the subject in size and condition. A lower rent rate is supportable for the subject. Comparable 3 is also a one bedroom apartment and is located further north in an area with overall lower appeal. Comparable 3 was recently renovated. A similar to slightly lower rent rate is supportable. The appraiser has also considered two additional two bedroom units at 713 Sixth Street. These units are similar to the subject in size and condition and are rented at monthly rates between \$490 per month and \$575 per month.

Rent Schedule: The appraiser must reconcile the applicable indicated monthly market rents to provide an opinion of the market rent for each unit in the subject property.

Unit #	Leases		Actual Rents			Opinion of Market Rent		
	Lease Dates		Per Unit		Total Rents	Per Unit		Total Rents
	Begin Date	End Date	Unfurnished	Furnished		Unfurnished	Furnished	
1	Yearly	Lease	\$ 615	\$	\$ 615	\$ 615	\$	\$ 615
2	Yearly	Lease	\$ 595	\$	\$ 595	\$ 615	\$	\$ 615

4			\$	\$	\$	\$	\$	\$
Comments on lease data Data obtained from property manager.			Total Actual Monthly Rent		\$ 1,210	Total Gross Monthly Rent		\$ 1,230
			Other Monthly Income (itemize)		\$	Other Monthly Income (itemize)		\$
			Total Actual Monthly Income		\$ 1,210	Total Estimated Monthly Income		\$ 1,230

Utilities included in estimated rents Electric Water Sewer Gas Oil Trash collection Multimedia Telephone Other

Comments on actual or estimated rents and other monthly income (including personal property) Unit 1 is a more recent lease and Unit 2 is rented to longer term tenants. Based on the comparables analyzed it is my opinion that Unit 1 is at market and Unit 2 should also support a market rent of \$615 per month. Total gross monthly rent is \$1,230 per month for the subject.

INCOME APPROACH TO VALUE The Income Approach was not developed for this appraisal.

Gross Rent Multiplier Analysis:

Address	Date	Sale Price	Gross Rent	GRM	Comments
801-803 Washington Ave	01/14/2022	100,000	910	109.89	N/A
1906 Gordon St	01/19/2022	110,000	875	125.71	N/A
4314 Rice Rd	01/31/2023	117,000	950	123.16	N/A
Opinion of Monthly Market Rent \$ 1,230		X Gross Rent Multiplier 115	= \$	141,450	Indicated Value by Income Approach

Summary of Income Approach (including support for market rent and GRM): Comparable 1 is the most similar in location and was fully rented at market at the time of sale. The appraiser also analyzed a sale of 19 units in the subject's neighborhood a short distance to the north. This sale indicated a GRM of 110 which provides good support for the GRM of Sale 1. Some weight is also given to Sale 3, which is the most recent sale. Considering these factors, I have adopted a GRM of 115 for the subject. Applying a 115 GRM to the subject's gross monthly rent of \$1,230 results in a value of \$141,450 via the income approach.

Additional Certification:

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

Legal Description:

The legal description shown is as provided by the Boone County Assessor's records.

Adverse Environmental Conditions:

No adverse environmental conditions or hazardous/toxic substances were observed on or near the subject site at the inspection by the appraiser. The appraiser is not an environmental inspector. No tests at the subject site for radon gas, mold/mildew or other hazardous/toxic substances were reported to the appraiser. If the client is concerned, a qualified professional should be contacted.

PRE-1978 --- No adverse environmental conditions or hazardous/toxic substances were observed on or near the subject site at the inspection by the appraiser. The appraiser is not an environmental inspector. As the subject is an older home that was built before 1978, it is possible that lead based paint, asbestos or other hazardous substances that were in use at that time are present. No tests at the subject site for radon gas, mold/mildew or other hazardous/toxic substances were reported to the appraiser. If the client is concerned, a qualified professional should be contacted.

Conditions of Appraisal:

- The Cost Approach is not considered herein as it is not relied upon by market participants for property types of this age and use.

The conclusion herein assumes all mechanical and service systems, including heating and central air conditioning units, are adequate and in working order. The conclusion further assumes the structure and foundation are sound and stable. It is further assumed that the subject has no adverse environmental problems or conditions. The appraiser(s) is not a structural engineer nor a mechanical contractor nor an environmental inspector. Assumptions concerning these items are based on the inspection of the property and (if available) information from the property owner. If subsequent professional inspection(s) reveals or indicates any deviation(s) from these assumptions, then a change in the opinion of value may be warranted.

This appraisal assignment was not based on a requested minimum valuation, a specific valuation or the approval of a loan. Your appraisers have taken all steps necessary or appropriate to complete the assignment competently in compliance with the Competency Provision of the USPAP. The level of detail of the information reported herein (Uniform Residential Appraisal Report) is consistent with the requirements of a summary appraisal report.

This report should not be relied upon to disclose any conditions present in the subject property. This appraisal report does not guarantee that the property is free of defects or environmental problems, including mold/mildew. Because the appraiser inspects visible and accessible areas only, and because the appraiser is not qualified to make such determinations, a professional home inspection by a qualified person would be necessary to determine the presence of any defects or environmental problems.

Confidentiality Policy:

We consider privacy to be fundamental to our relationship with clients. We are committed to maintaining the confidentiality, integrity and security of clients' personal information. Internal policies have been developed to protect this confidentiality, while allowing client needs to be served.

We restrict access to personal information to authorized individuals who need to know this information to provide service and products for you. We maintain physical, electronic, and procedural safeguards that comply with federal standards to protect your nonpublic personal information. We do not disclose this information about you or any former consumers or customers to anyone, except as permitted by law. The law permits us to share this information with our affiliates. The law also permits us to share this information with companies that perform marketing services for us, or other financial institutions that have joint marketing agreements with us.

When we share nonpublic information referred to above, the information is made available for limited purposes and under controlled circumstances. We require third parties to comply with our standards for security and confidentiality. We do not permit use of consumer/customer information for any other purpose nor do we permit third parties to rent, sell, trade or otherwise release or disclose information to any other party.

Opt-Out Notice:

You may limit information shared about you. If you prefer that we not disclose nonpublic personal information about you to third parties, you may opt out of those disclosures, that is, you may direct us not to make those disclosures (other than those permitted by law). If you wish to opt-out, contact us at 573.874.1207 or 609 E. Broadway, Columbia, Missouri, 65201.

• GP 2-4 Unit: Sales Comparison Approach - Summary of Sales Comparison Approach

Sales 1 and 2 date back more than one year. Market conditions have improved since these sales occurred. Sales 1 and 2 are positively adjusted 4% for improving market conditions. Sales 2 and 3 are inferior to the subject in location because they are further removed from the CBD. Sales 2 and 3 are positively adjusted to reflect this difference. Sale 1 is inferior to the subject in condition because it has more deferred maintenance and lacks updates such as newer windows. Sale 1 is positively adjusted in this comparison. Sale 3 is superior to the subject in condition because it had a unit updated with newer flooring and paint and an updated kitchen. Sale 3 is negatively adjusted to account for this difference. Sales 1 and 3 are superior to the subject in gross building area. These sales are negatively adjusted based on their respective difference compared to the subject. Sale 3 has central air conditioning and garage parking and is negatively adjusted for these features. Additional adjustments are applied as amenity differences noted.

The three sales indicate a range of values from \$105,030 to \$121,400. Sales 1 and 3 support the lower end of the range. Sale 1 is located just north of the subject and Sale 3 is the most recent sale. Sale 2 is the upper indicator and requires the fewest total number of adjustments. More weight is given to Sales 1 and 3 but some weight is given to Sale 2. A value near the lower end to middle of the range is supportable. I have adopted \$110,000 as my opinion of value via the sales comparison approach. The value per GBA, unit, room and bedroom indicators also provide strong support for a value of \$110,000.

FIRREA / USPAP ADDENDUM

Borrower

Property Address 403 N 5th St
City Columbia County Boone State MO Zip Code 65201
Lender/Client City of Columbia

Purpose
The purpose of the appraisal is to develop an opinion of market value of the fee simple interest, as defined in USPAP 2022-2023, as of the date set forth in the Reconciliation section of the report. The title is assumed to be good and marketable.

Scope
See pages 4-6.

Intended Use / Intended User
This report is intended for the sole and exclusive use of the named client to assist with internal business decisions. It is not intended for any other use, nor is this appraisal report to be relied upon by any third party for any reason whatsoever. Dissemination of this report to any other party is not permitted without prior written consent from the appraiser(s).

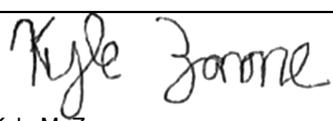

History of Property
Current listing information: None found.
Prior sale: Per the Boone County Recorder, the subject was transferred with 77 other properties in a 1031 exchange on 11/07/2022. No specific amount for the subject was disclosed.

Exposure Time / Marketing Time
The estimated exposure time is under 90-120 days if competitively marketed. The estimated marketing time is the same as indicated in the Neighborhood Section of the report. This estimate is based on the appraiser's observation of the marketing time for listings and sales within the immediate area and the ratio of the number of listings to sales.

Personal (non-realty) Transfers
Not applicable.

Additional Comments
The appraiser is not a structural inspector, a mechanical contractor, a termite inspector nor an environmental inspector and is not qualified to determine whether any such adverse condition, including mold/mildew, is present in the subject property. If mold/mildew is present, the appraiser is not qualified to determine the cause of mold/mildew, the type of mold/mildew, or whether the mold/mildew might pose any risk to the property or its inhabitants. The scope of this appraisal includes only the development of an opinion of value for the subject property.
The appraisal report has been prepared in accordance with Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), and the Uniform Standards of Professional Appraisal Practice (USPAP).

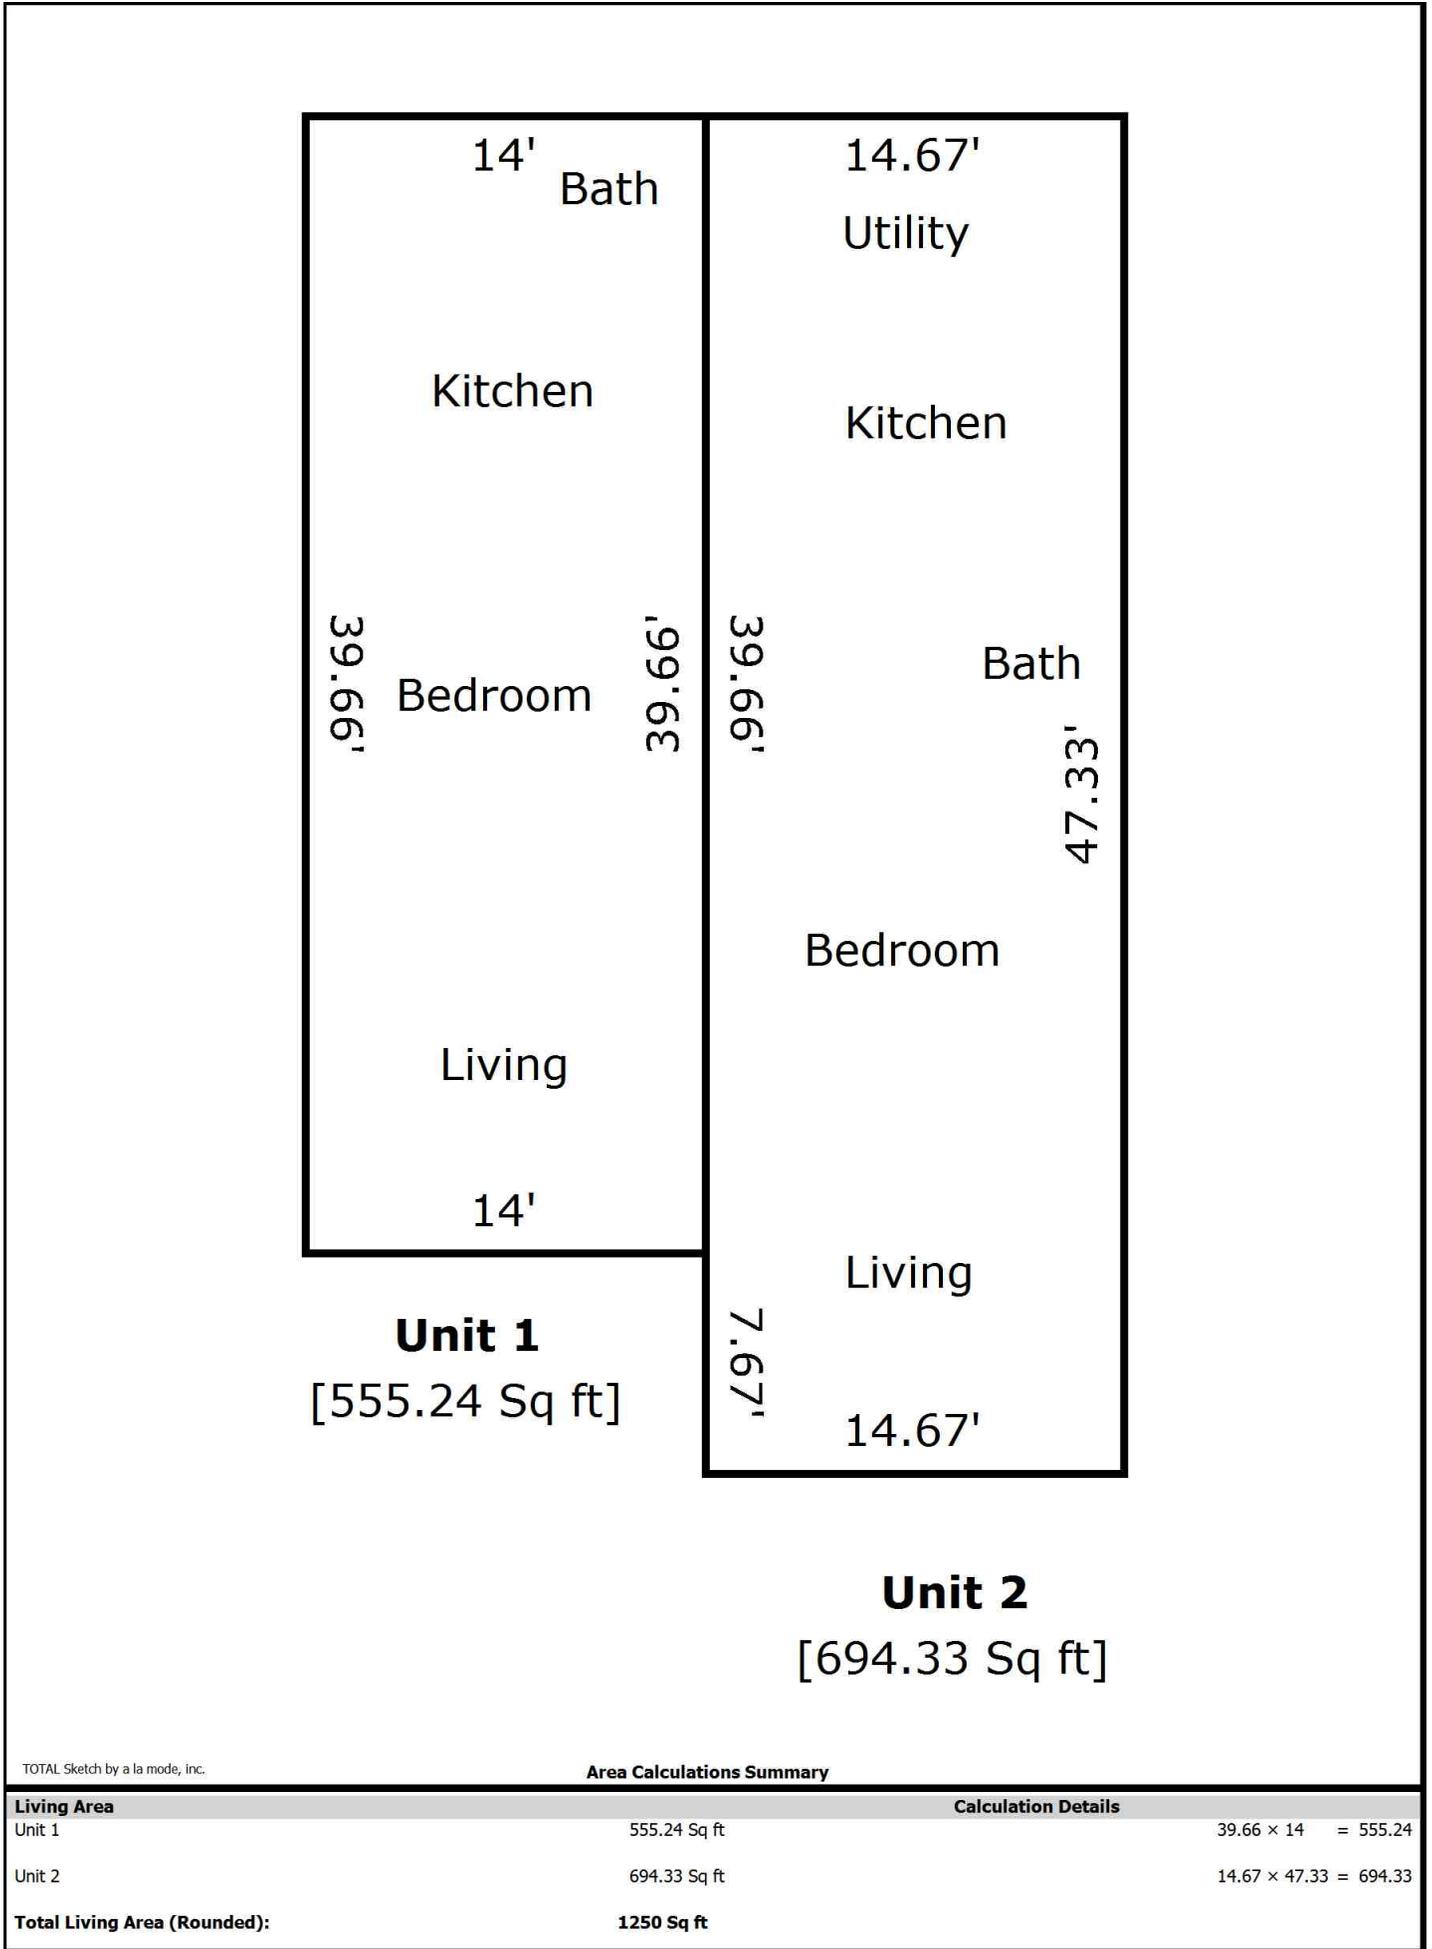

Certification Supplement
1. This appraisal assignment was not based on a requested minimum valuation, a specific valuation, or an approval of a loan.
2. My compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result or the occurrence of a subsequent event.
3. As of the date of this appraisal, Kyle M. Zanone has completed the requirements of the continuing education program of the Missouri State Certified Appraiser's Law and is currently certified as a Residential Real Estate Appraiser in the State of Missouri (Certificate 2019046196)

Appraiser(s): Kyle M. Zanone Supervisory Appraiser(s):

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
