Sec. 29-1.11. Definitions and rules of construction.

(a) *Definitions—General.* For the purpose of this chapter 29, the following words and terms are defined to mean the following:

Access. The place, means or way by which pedestrians, bicyclists and/or vehicles have ingress and egress to a property or use. A private access is an access not in public ownership or control by means of deed, dedication or public easement.

•••

Driveway. An area established or used for ingress and egress of vehicles from a street or thoroughfare to any point on private property.

<u>Dwelling, cottage.</u> A detached, single-family dwelling unit containing no greater than a total of 1,500 square feet of habitable living area.

Dwelling, live-work. A building or space within a building used jointly for residential and non-residential purposes, where non-residential purposes exceed those permitted by a home occupation.

Sec. 29-2.1. Establishment and conversion of districts.

(a) The Base and Overlay zoning districts listed in the New Zoning District column of Table 29-2.1 are hereby established and the zoning district classifications in effect before the effective date of this chapter shall be converted to the Base and Overlay zoning districts as set forth in Table 29-2.1. The Base and Overlay districts shall be grouped into three types - Residential, Mixed Use, and Special Purpose districts and shall have the boundaries shown on the Official Zoning Map.

and C-P will convert to district PD-[insert approved Ordinance number].

i) Purpose. This district is intended to promote and preserve safe and attractive urban one-family residential neighborhoods. The principal land use is a one-family dwelling unit per lot. Some public recreational uses, religious facilities, educational facilities, and uses incidental or accessory to dwellings are included, as shown in Table 29-3.1 (Permitted Use Table).

..

- (2) R-2 Two-family dwelling district.
 - (i) Purpose. This district is intended to provide for a blend of one-and two-family residential developments that will promote strong neighborhoods. The district is intended to accommodate both standard detached single-family and attached two-family residential development and small pockets of affordable small lot infill "cottage" residential development. The "cottage" standards require approval by the board of adjustment pursuant to section 29-6.4(j). The principal land use is one-family or duplex residential dwellings, as shown in Table 29-3.1 (Permitted Use Table). One principal structure is allowed per lot; two or more single-family detached dwellings are not permitted on a single lot.

(iii) Other standards. All development shall comply with all other applicable regulations in this chapter, including without limitation the permitted use regulations in article 3 and the form and development regulations in article 4.

(3) R-C: Residential cottage dwelling district.

(i) Purpose. This district is intended to provide opportunities to develop small lot and small footprint single-family detached residential dwellings consistent with those found within the City's core neighborhoods. Housing within this district will provide opportunities to create more affordable and attainable dwellings as well as provide opportunities for greater socio-economic integration among its residents. Residents within this district regardless of what stage within the homeownership cycle (i.e. first-time buyer or retiree) will be provided an opportunity to live within a neighborhood where multi-generational needs can be met. This district may contain a single "infill" lot not otherwise accommodated by this Code or an entire subdivision created in compliance with the provisions of this Code. The principal land use within the district is a small footprint (less than 1500 sq. ft.) detached one-family dwelling on individual lots as well as uses incidental or accessory to such a dwelling, as shown in Table 29-3.1 (Permitted Use Table).

- (3) R-MF multiple-family dwelling district.
 - (i) Purpose. This district is intended to provide for a mix of one-family, two-family, and medium density multi-family residential development. It may include a range of residential uses from one-family to medium and high density multi-family apartments and condominiums and fraternity and sorority houses. The scale of development is regulated to ensure that new development is not out-of-scale with the character and density of currently existing adjacent uses or zoning. The principal uses are residential, as shown in Table 29-3.1 (Permitted Use Table).

Sec. 29-3.3. Use-specific standards.

All uses for which the permitted use table in section 29-3.2 shows use-specific standard(s) shall comply with the applicable standard(s) in this section. In addition, all development shall comply with all other applicable provisions of this chapter.

In the event of a conflict between these use-specific standards and the requirements of chapter 29-4, the use-specific standards set forth in this section shall apply, except in the M-DT district, where the standards of the M-DT district will apply.

Where these use-specific standards require spacing between uses, no existing use that complied with applicable spacing requirements when the primary use was established on the property shall be made nonconforming because of the later location of any facility closer than the required spacing or because of an amendment to this chapter changing any applicable spacing distance.

- (a) Primary use of land and buildings: Dwelling, one-family detached.
 - (1) Single family dwellings developed in accordance with the "Cottage" standards shall be permitted only in the R-2 district in accordance with the procedural requirements of section 29-5.4(i).
 - (i) An accessory dwelling unit (ADU) shall not be permitted on any lot in the R-2 district developed in accordance with the "Cottage" standards.
 - (21) A manufactured home or modular home may be placed on a lot in the R-1, R-2, R-MF, or A districts if the structure meets the following standards:
 - The longest exterior dimension of the body shall be not more than two and one-half (2½) times the shortest exterior dimension;
