Comments:

This side of town needs a ^{safe} place for kids to go. Like a community center a place for them to play basketball, ping pong, etc. Somewhere safe for them to get together and have adult supervision, training, etc.

There is more space on the back of this form.

Comments: They should be honest on exactly what the Building is going to be used for. This community could use a center where there are programs for the children

Comments: 10 million on police facility to spread out administration!
No thank you. The police department has taken over substantial
more real estate down town. The city needs to invest this
10 million on officer salaries over next 10 years to address crime.
NE Columbia has a major problem w/ very few resources. Another
Police Facility will just spread out the department and build more
need w/ administration which is already top heavy.

Comments:

I attended the meeting at Grace Bible Church - early Oct. regarding the new police station on Rangeline - I think space for the police dept is #1 priority! - The community meeting room is great, but a place for kids to play - not so much. Can basket ball hoops with concrete pad be put in the area behind the building that can not be built

There is more space on the back of this form.

on, between the parking lot and the drainage area. If so, maybe the Park Dept. could add some play ground equipment -

I was sad to hear that about a week after grand opening of Boys & Girls Club new addition had a window shot through - nothing is safe any more I guess - at least the windows are high and since it was late at night no one was in the building -

I think the 2 ladies are doing a good job - they need to educate their neighbors and get them involved - taking care of their kids - teach them to respect public property, etc - and also to respect our police, fire fighters and city workers -

I'm sorry I got on my soap box, but I do support our city.
