From: City Manager & Staff

Council Meeting Date: April 4, 2016

Re: Generator Sales Agreement with MBS Textbook Exchange, Inc.

Executive Summary

Staff has prepared for Council consideration an ordinance authorizing the City Manager to execute an agreement with MBS Textbook Exchange, Inc. (MBS) for the sale of generators and associated switchgear, located on the property of MBS that have been operating under a Local Site Generator Agreement. The Local Site Generator Agreement will terminate on June 30, 2016. Staff has worked with MBS to negotiate the sale of the generators and associated switchgear. MBS has agreed on a sales price of \$214,000 based on an appraisal from Fabick Power Systems, dated November 24, 2015.

Discussion

In 2007, the City entered into an agreement with MBS Textbook Exchange, Inc (MBS) to install diesel generators on their property. The initial purpose of these generators was to benefit both the City of Columbia's electric system by providing additional generation capacity and energy during times of peak electric demand and to provide MBS with standby/emergency generation for their facility in the event of a loss of power on the City's electric distribution system.

In May of 2013 new environmental regulations for stationary Compression Ignition (CI) Reciprocating Internal Combustion Engines (RICE) went into effect. These new regulations limit the operations of CI-RICE engines like the diesel generators mentioned above. These new regulations remove the ability for the City use these generators as generation capacity and significantly limits the ability to produce energy for non-emergency purposes. The regulations do not limit the ability for these generators to be utilized as standby generation for end use customers at this time.

With the loss of capacity and energy production capabilities, the City no longer receives its portion of the benefits from these diesel generators. In April 2015, staff reported that the City intends to not renew these customer agreements. In June, MBS was notified of the City's intent not to renew its agreement with them. Because the generators may still be utilized as standby/emergency power sources, staff has worked with MBS to negotiate an agreement to transfer ownership of these generators to them.

Staff has worked with MBS to negotiate the sale of the generators and associated switchgear. *MBS has agreed on a sales price of \$214,000 based on an appraisal from Fabick Power Systems, dated November 24, 2015.*

Fiscal Impact

Short-Term Impact: MBS has agreed on a sales price of \$214,000.

Long-Term Impact: None

Vision & Strategic Plan Impact

Vision Impacts:

Primary Impact: Not Applicable, Secondary Impact: Not Applicable, Tertiary Impact: Not Applicable

Strategic Plan Impacts:

Primary Impact: Not Applicable, Secondary Impact: Not Applicable, Tertiary Impact: Not Applicable

Comprehensive Plan Impacts:

Primary Impact: Not Applicable, Secondary Impact: Not applicable, Tertiary Impact: Not Applicable

Legislative History

Date	Action
04/02/2007	B112-07 Council Bill Authorizing Local Site Generator Agreement with MBS Textbook Exchange, Inc
04/06/2015	REP 42-15 Report recommending not renewing Local Site Generator Agreements.
12/21/2015	R197-15 Authorizing a first addendum to the Local Site Generator Agreement with MBS Textbook Exchange, Inc.

Suggested Council Action

Staff recommends Council approve an ordinance authorizing the City Manager to execute an agreement with MBS Textbook Exchange, Inc. (MBS) for the sale of generators and associated switchgear.
