Re: Authorizing a Bid Call for Construction of the Walnut Street Resurfacing Project between College Avenue and Old Highway 63 North.

Executive Summary

Authorizing a bid call through the Purchasing Division for construction of the Walnut Street Resurfacing project between College Avenue and Old Highway 63 North. An Interested Parties (IP) meeting was held on September 29, 2021, and the Public Hearing was held on November 15, 2021.

Discussion

The Walnut Street Resurfacing project design is approximately 2,700 feet long starting at College Avenue and ending at Old Highway 63. The design includes a mill and asphalt overlay for the entire length of the project. The project also includes various locations of the existing roadway being removed and reconstructed, curb and gutter being reconstructed, and sidewalk being reconstructed. The sidewalk reconstruction will include new curb ramps and landings to meet the Americans with Disabilities Act (ADA) requirements. Finally, after the asphalt overlay has been completed, new pavement striping will go in, including new crosswalk markings.

Easements are not anticipated to need to be acquired for this project and construction is currently scheduled to be completed during the summer of 2022. The estimated total project cost for this sidewalk is \$388,000. Funding for this project will come from the ¼-cent Capital Improvement Program (CIP) Sales Tax.

Fiscal Impact

Short-Term Impact: The estimated total project cost for the sidewalk is \$388,000 and will be funded the ¼-cent Capital Improvement Program (CIP) sales tax.

Long-Term Impact: Routine maintenance.

Strategic & Comprehensive Plan Impact

[Strategic Plan Impacts:](#)

Primary Impact: Reliable Infrastructure, Secondary Impact: Organizational Excellence,
Tertiary Impact: Tertiary

[Comprehensive Plan Impacts:](#)

Primary Impact: Infrastructure, Secondary Impact: Mobility, Connectivity, and Accessibility,
Tertiary Impact: Not Applicable
