GENERAL

The purpose of this modification/amendment is to modify ARTICLE X - Key Officials, Section A, ARTICLE XI, Section A – Award and Payment, and ARTICLE IX, Term of Agreement. Article XI is modified to increase the cost of the project with no change to the scope. A cost increase is necessary due to contract overages and budget miscalculations. ARTICLE IX, Term of Agreement is modified due to allow additional time to complete the original scope of work and complete closeout paperwork.

This modification/amendment will also add the following Articles:

ARTICLE XX – ENSURING THE FUTURE IS MADE ALL OF AMERICA BY ALL OF AMERICA’S WORKERS
ARTICLE XXI - GEOSPATIAL DATA
ARTICLE XXII – BUILD AMERICA, BUY AMERICA

MODIFICATION

1. ARTICLE X – Key Officials, Section A. The following is modified:

Barry Jurgensen is the NPS Program Officer (PO)

Barry_Jurgensen@nps.gov

David Kelly is the State Liaison Officer

573-751-8459

David.Kelly@dnr.mo.gov

2. ARTICLE XI, Section A. The following is modified:

NPS will provide funding to the Recipient in an amount not to exceed \$312,500.00 for the Statement of Work described in Article IV and in accordance with the NPS approved budget.

3. ARTICLE IX, Term of Agreement

Change expiration date from September 30, 2022 to September 30, 2023.

4. The following Articles are added:

ARTICLE XX – ENSURING THE FUTURE IS MADE ALL OF AMERICA BY ALL OF AMERICA’S WORKERS PER [E.O. 14005](#) (dated January 25, 2021)

Per Executive Order 14005, entitled "Ensuring the Future Is Made in All of America by All of America's Workers" the Recipient shall maximize the use of goods, products, and materials produced in, and services offered in, the United States, and whenever possible, procure goods, products, materials, and services from sources that will help American businesses compete in strategic industries and help America's workers thrive.

ARTICLE XXI - GEOSPATIAL DATA

Geospatial Data Act of 2018, Pub. L. 115-254, Subtitle F – Geospatial Data, §§ 751-759C, codified at 43 U.S.C. §§ 2801–2811 - Federal recipient collection of geospatial data through the use of the Department of the Interior financial assistance funds requires a due diligence search at the GeoPlatform.gov list of datasets to discover whether the needed geospatial-related data, products, or services already exist. If the required data set already exists, the recipient must use it. If the required data is not already available, the recipient must produce the proposed geospatial data, products, or services in compliance with applicable proposed guidance and standards established by the Federal Geospatial Data Committee (FGDC) posted at www.fgdc.gov.

Recipients must submit a digital copy of all GIS data produced or collected as part of the award funds to the bureau or office via email or data transfer. All GIS data files shall be in open format. All delineated GIS data (points, lines or polygons) should be established in compliance with the approved open data standards with complete feature level metadata.

ARTICLE XXII – BUILD AMERICA, BUY AMERICA

As required by Section 70914 of the Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act), P.L. 117-58, on or after May 14, 2022, none of the funds under a federal award that are part of Federal financial assistance program for infrastructure may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States, unless subject to an approved waiver. The requirements of this section must be included in all subawards, including all contracts and purchase orders for work or products under this program.

Recipients of an award of Federal financial assistance are hereby notified that none of the funds provided under this award may be used for a project for infrastructure unless:

1. all iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
2. all manufactured products used in the project are produced in the United States —this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
3. all construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of the structure or permanently affixed to the infrastructure project.

For further information on the Buy America preference, please visit <https://www.doi.gov/grants/BuyAmerica>. Additional information can also be found at the White House Made in America Office website: <https://www.whitehouse.gov/omb/management/made-in-america>

Waivers

When necessary, recipients may apply for, and the Department of the Interior (DOI) may grant, a waiver from these requirements, subject to review by the Made in America Office. The DOI may waive the application of the domestic content procurement preference in any case in which it is determined that one of the below circumstances applies:

1. Non-availability Waiver: the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality;
2. Unreasonable Cost Waiver: the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent; or
3. Public Interest Waiver: applying the domestic content procurement preference would be inconsistent with the public interest.

There may be instances where an award qualifies, in whole or in part, for an existing DOI general applicability waiver as described at: <https://www.doi.gov/grants/BuyAmerica/GeneralApplicabilityWaivers>.

If the specific financial assistance agreement, infrastructure project, or non-domestic materials meets the criteria of an existing general applicability waiver within the limitations defined within the waiver, the recipient is not required to request a separate waiver for non-domestic materials. If a general applicability waiver does not already apply, and a recipient believes that one of the above circumstances applies to an award, a request to waive the application of the domestic content procurement preference may be submitted to the financial assistance awarding officer in writing. Waiver requests shall include the below information. The waiver shall not include any Privacy Act information, sensitive data, or proprietary information within their waiver request. Waiver requests will be posted to <https://www.doi.gov/grants/buyamerica> and are subject to public comment periods of no less than 15 days. Waiver requests will also be reviewed by the Made in America Office.

1. Type of waiver requested (non-availability, unreasonable cost, or public interest).

2. Requesting entity and Unique Entity Identifier (UEI) submitting the request.
 3. Department of Interior Bureau or Office who issued the award.
 4. Federal financial assistance listing name and number (reference block 2 on DOI Notice of Award)
 5. Financial assistance title of project (reference block 8 on DOI Notice of Award).
 6. Federal Award Identification Number (FAIN).
 7. Federal funding amount (reference block 11.m. on DO Notice of Award).
 8. Total cost of Infrastructure expenditures (includes federal and non-federal funds to the extent known).
 9. Infrastructure project description(s) and location(s) (to the extent known).
 10. List of iron or steel item(s), manufactured goods, and construction material(s) the recipient seeks to waive from Buy America requirements. Include the name, cost, countries of origin (if known), and relevant PSC or NAICS code for each.
 11. A certification that the recipient made a good faith effort to solicit bids for domestic products supported by terms included in requests for proposals, contracts, and nonproprietary communications with the prime contractor.
 12. A statement of waiver justification, including a description of efforts made (e.g., market research, industry outreach) by the recipient, in an attempt to avoid the need for a waiver. Such a justification may cite, if applicable, the absence of any Buy America-compliant bids received in response to a solicitation.
 13. Anticipated impact if no waiver is issued. Approved waivers will be posted at <https://www.doi.gov/grants/BuyAmerica/ApprovedWaivers>; recipients requesting a waiver will be notified of their waiver request determination by an awarding officer.
- Questions pertaining to waivers should be directed to the financial assistance awarding officer.

Definitions

“Construction materials” includes an article, material, or supply that is or consists primarily of:

- non-ferrous metals;
- plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- glass (including optic glass);
- lumber; or
- drywall.

“Construction Materials” does not include cement and cementitious materials, aggregates such as stone, sand, or gravel, or aggregate binding agents or additives.

“Domestic content procurement preference” means all iron and steel used in the project are produced in the United States; the manufactured products used in the project are produced in the United States; or the construction materials used in the project are produced in the United States.

“Infrastructure” includes, at a minimum, the structures, facilities, and equipment for, in the United States, roads, highways, and bridges; public transportation; dams, ports, harbors, and other maritime facilities; intercity passenger and freight railroads; freight and intermodal facilities; airports; water systems, including drinking water and wastewater systems; electrical

transmission facilities and systems; utilities; broadband infrastructure; and buildings and real property. Infrastructure includes facilities that generate, transport, and distribute energy.

“Project” means the construction, alteration, maintenance, or repair of infrastructure in the United States

5. All other terms and conditions remain unchanged.

SIGNATURES

Recipients are NOT required to sign the Notice of Financial Assistance Award letter or any other award document. As per DOI standard award terms and conditions, the recipient's acceptance of a financial assistance award is defined as the start of work, drawing down funds, or accepting the award via electronic means.

Revised Budget Narrative

29-01705.1 Phillips Park Tennis and Pickleball ProjectColumbia, Missouri

Proposed Federal Action:

Approval of a Land and Water Conservation Fund amendment to modify the budget in the grant agreement to include \$125,000.00 in additional costs incurred due to construction cost overages. The LWCF federal share of this increased cost is \$62,500.00.

Categorical Exclusion

On the basis of the environmental impact information in the LWCF grant file, including the public and agency involvement documented on the associated Proposal Description and Environmental Screening Form, I am categorically excluding the described project from further NEPA analysis. The action is fully described in NPS DO-12, Section 3.3 A(1) which states, "Changes or amendments to an approved action when such changes would cause no or only minimal environmental impact."

None of the exceptional circumstances described in NPS DO-12, Section 3.5 apply to this project.
