### DOWNTOWN COMMUNITY IMPROVEMENT DISTRICT SELECTED INFORMATION - SUBSTANTIALLY ALL DISCLOSURES REQUIRED BY THE MODIFIED CASH BASIS OF ACCOUNTING ARE NOT INCLUDED SEPTEMBER 30, 2022

#### NOTE 1: RECONCILIATION OF FUND ACTIVITIES

Governmental accounting standards require very specific methods for reporting assets, liabilities, revenues and expenses in the government's general fund. Accordingly, certain adjustments are required to reconcile this fund reporting to the modified cash basis of accounting used by management in the presentation of these financial statements.

Amounts reported for general fund activities differ from amounts reported in the statement of net position because:

- Capital assets (net of accumulated depreciation) used in governmental activities are not financial resources and, therefore, are not reported in funds.
- Credit cards payable represent a deferred outflow of resources and, therefore, are not reported in funds.
- Line of credit payable represents a deferred outflow of resources and, therefore, are not reported in funds
- Required classifications of governmental fund balances as unassigned and assigned are inherently different from the presentation of net investment and restriction detail included in the net position.

Amounts reported for general fund activities differ from amounts reported in the statement of activities because:

- Governmental funds report capital outlays as expenditures. However, in the Statement of Activities capital costs are allocated over their estimated useful lives through depreciation expense.
- Repayment of credit card liabilities consumes the current financial resources but has no effect on the net position of governmental funds.
- Repayment and use of line of credit liabilities consumes the current financial resources, but has no effect on the net position of government funds.
- Recognition of previously deferred revenues, which primarily consist of deferred sales and property tax receipts, increases current financial resources but has no effect on the net position of governmental funds.
