22 August 23 meging3	VOTES 5	I'm super excited about the beginner MTB trails in o ur community. Our kids are on the local MTB team a nd this trail will be a draw to CoMO.
22 August 23 KG	VOTES	Yes to a hiking and biking trail!! Columbia will benefit so much from a trail that brings in our community members for time in nature. It will also bring in business from neighboring communities and states.
22 August 23 TFlaherty	VOTES E	I think beginners' biking trails is a super idea. More t rails=healthier/happier/safer kids!!
23 August 23 bethanyhaid	VOTES 5	I think a beginner trail is wise! Rhett's Run and Rock Bridge are too intimidating for me, so I have only us ed gravel trails or paved ones.
23 August 23 bethanyhaid	votes 3	I hope the bike trail will also be a safe, fun place for a hike with kids under 10. Ability to use the trail for non biking would be great
23 August 23 bethanyhaid	votes 0	I hope the trail will have clear markers. Rhett's Run and Capen Park trails are a little tricky to follow.
23 August 23 Joshturner	VOTES 5	This is such a great opportunity for recreation touris m in Columbia and a much needed beginner trail for all to access. Huge for our youth.

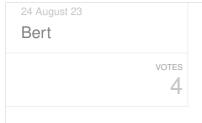

23 August 23 BFro VOTES	Yes! - This is a great opportunity to build community and improve public health (www.cdc.gov/healthyplac es/healthtopics/physactivity.htm).
23 August 23 musick427 votes 4	Yes to more biking in nature! It would be great to take my kids on a fun "adventure" ride that they could handle! So h appy to live in a community that encourages outdoor play for kids and adults!
23 August 23 MichaelaMorgan VOTES	Thank you for considering adding a trail with novice mountain bikers and hikers in mind. This is a fantast ic addition to our community.
23 August 23 Midmoab VOTES	More outdoor opportunities build community around nature and healthy lifestyles. This will be a great opti on for hikers, bikers, runners! Why wait?
23 August 23 m.timothy VOTES	A beginner mountain bike trail would be a great addition to CoMo. My son is just learning to ride and he would love it. I can't wait!
23 August 23 mountainbikesam votes 4	More trails, more better. Utilize professional help for trail design/build. Bi-directional trail if possible. YES! Looking forward to it.

Ideas

Bike trails near sensitive areas are never a good ide a. Bike rutting causes severe erosion -The banks of Gans are already failing.

This shows the Nationally protected Gans Creek area - NE corner adjoining the red are a. Just one of many examples of erosion on a tiny ephemeral feeder creek caused by disturbed land runoff - this from from the recreation area even without any bike trails. We don't want what has happened in the hills outside of Mexico City - they can't even hike the trails which have become deep chasms due to mountain bikes. The bikers have made new trails parallel to originals and these too are in massive state of erosion. Soil, earth and natural areas simply cannot mix with off-road bikes unless you are willing to destroy the area. Why do we persist ignoring the inevitable? People ten years from no we will ask, "What the H were they thinking?"

My son rides MTB with the youth NICA program. On e difficulty we had when getting him started in COM O was lack of beginner friendly trail.

We need more Green Trail

This will be a great addition to CoMO's trail system. A much-needed one because we don't have any be ginner MTB trails.

24 August 23 Hiker_Biker VOTES 2

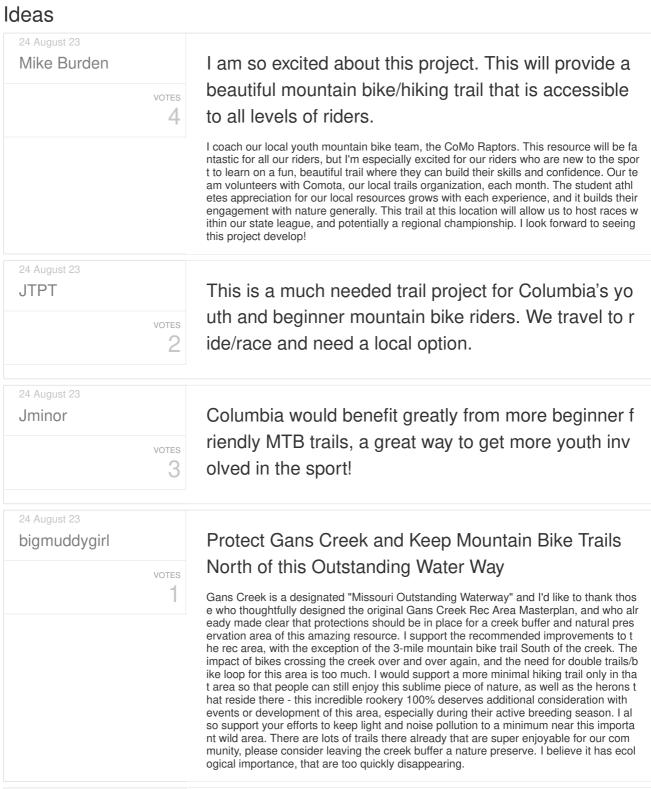

I support the trail only if wildlife and ecosystem integ rity is given utmost consideration and responsible st ewardship is enforced.

24 August 23 RobinRotman VOTES 2

Recreational tourism -- at the expense of the environment

As designed, the trail lacks sufficient protection for Gans Creek and the surrounding ec osystem. I support the concept of a child-friendly mountain bike trail for Columbia resid ents to use. I do not support the concept of a trail that is designed for hosting large competitions and tourism purposes at the expense of our local flora and fauna. I am particularly concerned about the creek crossing and the additional four miles of trail that are being advocated for south of the creek. There is no reason to have a creek crossing when existing roadways can be used.

24 August 23 diamondd	votes	The bike race track is incompatible with conservation of Gans Creek, which is mandated in the City's own plan.
24 August 23 BrandonCMoore		We need more kids on bikes on trails
	votes 2	Youth recreation does not get better than this: active, outdoors, confidence-building, ha bitat maintaining and community building. Gotta support the all-around win.
24 August 23 robersonkw	votes	I support this project, with the exception of the South Bike Trail.
24 August 23 robersonkw	votes 0	No to South Bike Track I support this plan with the exception of the South Bike track. It crosses Gans Creek an d is mostly in the area of the Park that has been designated as a creek buffer and natural area. Gans is a Missouri Outstanding Waterway and was protected by the city with this buffer in both Masterplans. We must not support sports-tourism at the cost of our limited and sensitive natural areas. This seems at odds with where the majority of our citizens are concerning protecting sensitive areas.
24 August 23 ubgigi	votes 3	Having a family friendly place in Columbia to conne ct with people and be active outdoors is important fo r our community.
24 August 23 MOstkdog	votes 3	Our son rides for the COMO Raptors and my husba nd and I have become enthusiastic bike riders again! We are in full support of all the improvements planned for the Gans Creek Recreation Area, especially the trails planned for beginners, the NICA course and the additional miles of trail on the south side of the creek! Mountain biking is a relatively low impact activity and people who mountain bike are very appreciative of the trails and supportive of our public lands. Not to mention advocates for wildlife! This will be a great addition to all that Columbia offers, not to mention a positive economic benefit for our community.

Ideas

I love the idea of accessible MTB trails. And I love them at Gans Creek Recreational Area. I don't think they should cross Gans Creek here.

I love the idea of accessible MTB trails. And I love them at Gans Creek Recreational Ar ea. I don't think they should cross Gans Creek. I think we should keep the north trail bu t not include the south trail. This isn't just any creek. This is one of a few State Outstan ding Water Resources. It flows into specially protected Gans Creek Wild Area, part of R ock Bridge State Park. That fact was reflected in the Southeast Regional Park Master Plan by creating a special Creek Buffer and Natural Preservation Area – a unique visio n for a unique area and opportunity. https://www.como.gov/webapps/cipweb/downloadf ile.php?id=2941 . We all know that Master Plans need to be alive and flexible. But I thi nk that a lot of thought went into that special designation in the approved Master Plan. I don't think there's any way that a MTB trail crossing is compatible with best protection f or this outstanding creek area. We know that COMOTA and Columbia Parks are going to be careful planners and builders and stewards of the park. They've shown that over and over. But this creek shouldn't have a competitive bike crossing. Just downstream i s the currently occupied heron rookery - an indication of a very special and quiet area. We all want people to access the creek for sure. I think a pedestrian trail is the best use for the park south of the creek, possibly accessible from Gans Creek Rd. That more clo sely matches the vision of the original Master Plan around this special area. I do also a ppreciate that the peninsula where the rookery currently is does not have development. That is a good choice.

06 September 23 Mizzou1985 VOTES

There shouldn't be a bike trail south of Gans Creek which is an Outstanding State Resource Water. Kee p original stream protection buffer.

P&R turned away horses in the original master plan because they wanted to protect G ans Creek. Why would P&R now allow bikes to run through the creek? I have nothing a gainst the proposed trail north of the creek and like the idea of burn areas.

07 September 23 Ejusher VOTES 2

Mtb trails and bridge over the creek are needed

Beginner mtb trails are a great opportunity to attract tourism for high school races, and a great place for beginners to hone their skills before taking on the more advanced trail s in the area. The trails on the south side of the bridge are a needed addition to the crowded rock bridge trails, and will be great for bikers, runners, and hikers.

I'd love to see more new trails in Columbia! A begin ner mountain bike trail would be a great addition to t he community

10 September 23 DavidR VOTES

Great opportunity for biking

So excited to see another access point for the residents of Columbia to experience our best resource in Missouri, nature. A green bike trail would be a fantastic addition to the area and I hope more trails will be on the way. Super excited to teach my daughter how to mountain bike out there!!

Ideas

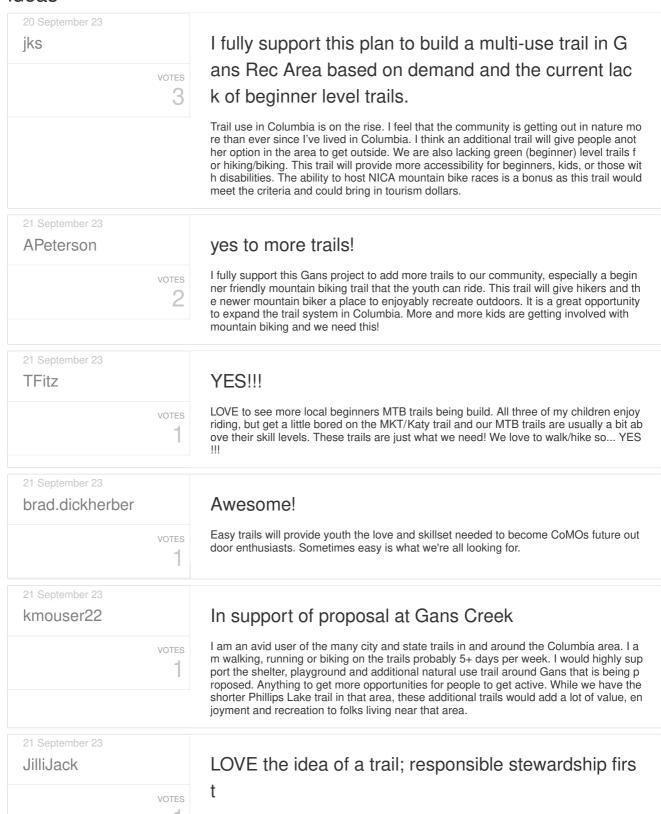

More access to the outdoors via purpose-built cyclin g and hiking trails to further enhance this recreation al place.

Creating a multi-purpose cycling and hiking trail is a fanatics addition to the Columbia Mo area. Columbia Mo has a fantastic opportunity to improve the accessibility of the ou tdoors to a larger group of users with a focus on green-level trails on the north end. Thi s will allow more accessibility to the area and provide a place for everyone to practice a nd learn in an environment that is low stakes and immerse users into the local urban e nvironment. Including the south trails in this project will be critical in providing the acce ssibility for progression for those who are seeking to expand on their skill sets or enjoy I ess traveled trails compared to the green loop trails. Construction of all trails at one tim e will limit the impacts on the local environment with one period of construction and will help keep the cost of the project down compared to two separate projects. Ensuring tha t the trail design is of one-way directional trail is the best way to limit any negative inter actions between user groups. You don't play golf at each other, so why would you direc t traffic right at each other? Stacking loops of increasing difficulty is a great way to ena ble progression and accessibility for all user groups in a manner that is safe and efficie nt. Allowing users the ability to increase or decrease the trail difficulty by taking a differ ent loop ensures that users are able to choose what kind of experience they want to tak e on. The ability for progression opportunities on the side of the trail is a great way to m ake use of the terrain's natural topography which leads to a more engaging experience for those who are interested in it. It limits the impact on the natural community and allo ws for the full utilization of the terrain to engage a variety of skill levels and progression opportunities. The proposed recreation opportunities are of the silent sport variety whic h will limit any impact on the area. Hiking and cycling are low-impact sports especially compared to equestrian users who are in the "wildness area" adjacent to the project. T here are several crossings downstream in that area that are longer in length and have steeper banks that lead to more erosion than anything currently proposed. The impact of silent sports is a fraction compared to the impact that occurs from equestrian users i n a "protected wildness area" that has an "outstanding waterway" that crosses a variety of different places.

19 September 23 Jason.patrie		Yes to the trail
	votes 2	Please move forward with this trail construction.
19 September 23		
Rockdoc		Definitely a yes!!!
	votes 3	A beginner level mountain bike course will be a fantastic addition to our Columbia park s. It will also support our local youth mountain bike team the Raptors gain confidence to tackle more technical trails.
20 September 23		
BiggsA		This project should move forward, as designed. Col
	VOTES	umbia has a well established outdoor/bicycle comm unity. It would get used, for years.

Ideas

Love the idea of a mountain biking trail for beginners!! If streams are reasonably protec

ted and stewardship of our natural resources made priority, I'm on board!

21 September 23 BigCatDude		Great area for multiple sports and activities
	VOTES	Would like to see MTB trails and hiking trails be integrated.
21 September 23 NTimmins		Beginner bike trail needed in our community!
	VOTES 1	As a mother to three young boys, I would love to see our community develop some beg inner trails like other bike and family-friendly communities (nod to Bentonville, Arkansa s) - bike trails are in high demand and giving beginners a space to safely gain confiden ce would be an amazing addition to our community!
21 September 23		
Meghanferry		The Columbia area would really benefit from more
	VOTES	mountain bike trails, especially beginner friendly trail s. People need a place to learn.
		More mountain bike trails!
27 September 23		
BrianLBrown		N.I.C.A. age and skills appropriate Mountain Bike C
	VOTES	ourse
	1	This project incorporates a mountain bike racing trail with a skill level that is appropriat e for our school aged youth who either participate in, or want to participate in the Natio nal Interscholastic Cycling Association teams and events. Mountain biking is a great w
		ay to exercise, have fun, and socialize with others, and it also provides an excellent alt ernative to traditional youth sports.
07 October 23		
Samantha		I think this is such a good idea! Yes please!
	VOTES 1	
08 October 23		
nsmith		Our community needs a beginner-friendly multi-use t
	VOTES	rail system.
	0	Trails are proven to help people of all ages incorporate exercise into their daily routines by connecting them to nature. These trails will be professionally designed and will meet the need for more beginner-friendly trails here in Columbia. These trails will get more p eople of all ages outside and out in nature!
10 October 23		
cgk		The burn areas would be a great place to seed nativ
	VOTES	e prairie and grassland species.
	0	Native prairie
