COLUMBIA PARKS AND RECREATION
PUBLIC COMMENT FORM

Please comment on what you like about the proposed potential improvements. Please be concise.

I AM very impressed by the Proposed improvements The extra shelter bike Repair stand and future Power Tools are a great idea !!.

I Believe the whole Park is a great addition to this town.

I use the Park trails to commute 5 days a week Thank you for this great Resource

What would you change about the proposed potential improvements? Please be concise.

The only thing I would mention would be some Maintainace that is needed for safety as some of the slabs are beginning to degenerate.

The above record(s) is subject to Missouri's open records laws and may be provided to the public if requested and/or placed in public domain.

Thank you for your participation.

Please comment on what you like about the proposed potential improvements. Please be concise.

WOULD LIKE A CENTER STRIPE ALONG THE OUTER LOOP TRAIL ✓

WOULD LIKE TO LIMIT THE AMOUNT OF STRUCTURES AND CONCRETE IN THE PARK AT SOME POINT THE MAN-MADE FEATURES IN THE PARK SHOULD CEASE

What would you change about the proposed potential improvements? Please be concise.

THANKS TO ALL THE PARKS AND REC DEPT. AND CITY OF COLUMBIA FOR PROVIDING AND MAINTAINING OUR GREAT PARKS! ✓

Additional water fountain and fixed bathroom ✓
Extra parking should help on busy days

What would you change about the proposed potential improvements? Please be concise.

Consider timer/solar power control for bike charging

I have encountered unhomed people sleeping on the ✓
sidewalk/ Hinkson Creek trail where it crosses under
Broadway. Please consider if these improvements will
attract more people to trying to sleep/camp in the park.

VOTES 1

Please do not expand parking lot.

The cycling station and amenities are an excellent idea, and would be a welcome additi on to Stephens Lake Park. This would encourage more cycling. A parking lot expansio n would do the opposite--green space needs to be green space.

Camparan

VOTES 2

All new lighting to meet dark sky lighting standards and be in the red spectrum ((not over 3000K). Add EV charging station for cars too.

VOTES 0

Security cameras, especially in all parking lots. My c ar was broken into one bright sunny afternoon, also 2 other cars. Punched lock ~$300.

Please stop adding so much parking to our parks!

Dedicating additional space to parking reduces the amount of green space in parks, w hile incentivizing driving. We should be encouraging alternative forms of transportation, especially to and within our city parks. Increased pavement contributes to the heat isla nd effect (which is already a significant problem, see the recent heat study done by the city), and incentivizing driving leads to an increase in greenhouse gas emissions (whic h we're supposed to be reducing - see every city plan that mentions climate). While ma ny cities are converting old parking lots to parks, ours keeps adding too much parking t o ours - disappointingly backward thinking for our supposedly progressive city. When I' m out trying to enjoy the natural beauty of our parks, I don't want to see a bunch of per sonal property all over the place! I do love the charging infrastructure and additional par king for bikes. If anything, add some charging infrastructure for cars too (at least incenti vizing electric vehicles if you're going to incentivize driving) rather than adding yet more parking.

Light Pollution and Fishing Access

I would like to see Parks & Rec establish lighting guidelines in SLP (and other parks) t hat reduce light pollution: full cutoff lights for bathrooms and trails, downward-facing lig hts in parking lots, warmer bulbs, etc. And motion-sensor- and photocell-controlled ligh ts on the trail. I'm not sure why we're burning money having those trail lights on during t he day. Also: It would be nice for the anglers if a couple of notches were cut through th e bush on the dam. That used to be a popular fishing spot before it was crowded out. I do like the buttonbushes, though. :)

VOTES 1

Playground upgrade at Stephens Lake Park

I agree that the broken playground structure at Stephens Lake Park needs to be replac ed and upgraded. I cannot tell fully from the image, but I hope the suggested playgroun d is suitable for a wide age group. As a mom, it’s helpful if play structures have varying levels of difficulty to support a variety of ages. The structure that is there currently isn’t t he best for children 1.5 - 3 years old.
