The complete system is to be comprised of the following:

1. Solar panels
16 - Axitec, AC-265P/156-60S with integrated Solar Edge DC optimizer
2. Mounting system
RoofTech, E Mount Air
3. Inverter
1 - Solar Edge SE5000-H
4. Interconnecting cabling
PV wire and THHN wire in conduit
5. Installation materials.
Material and components as required for a complete, code and utility compliant installation
6. Installation services.
Labor provided for complete, professional installation.

Quality Assurance:

Dogwood Solar provides a 10 year warranty on workmanship, product warranties per manufacturer

Module warranty: 25 year power production, 12 year workmanship

Inverter warranty: 12 year, extendable to 25 year

Dogwood Solar utilizes third party verification of:

1. Draw plans per Utility company standards
2. Inspect the wiring on the project for compliance with NEC code in force

"Helping our clients make the BRIGHT choice"

Dogwood Solar, LLC

Includes installation of solar disconnect, PV production meter, and all work associated with tie-in to existing electric service.

Material, labor, MO sales tax, permits, necessary inspections, and owner orientation are all included

4.24 kW DC total system size, typical of 4

\$10,000.00

This system should be eligible for the City solar rebate.

We will not know the amount until we confirm the tilt, azimuth and shading of the panel location[s] on the roof. I believe the new owner will be eligible for the 30% Federal Tax Credit.

Total Project Cost for four homes

\$40,000.00

10% Deposit \$4,000 Date paid:_____ Check #:_____

40% Deposit \$16,000 Date paid:_____ Check #:_____

Final Payment \$20,000 Date paid:_____ Check #:_____
