

# **Utility Departments**

# Description

The City of Columbia owns and operates the Water, Electric, Sewer, Solid Waste, and Storm Water utilities. Each of these departments are classified as Enterprise Fund operations which means that they are to be self-supporting activities which render services to the general public on a user-charged basis. The revenues received are dedicated to the department they are generated in. The revenues cannot be used to fund General Fund operations.

The customer service function of these utility departments is performed by the Utility Customer Services Fund, which is classified as an Internal Service Fund. Internal Service funds provide goods and services to other departments on a cost reimbursement basis. These services include the setting up of utility accounts, transfers, closing accounts, payment agreements, coordination of disconnection for non-payment, and generation and mailing of monthly bills. For these services, each of the utility departments pay a portion of the cost of the Utility Customer Services budget. For detailed information on the expenses of the Utility Customer Services Fund, refer to the Supporting Activities Section, located on page 439.

Each of these utility departments pay an intragovernmental charge to the General Fund called General and Administrative Charges. This fee is used to recover the cost of functions which have been centralized within the City such as Finance, City Council, City Manager, City Clerk, Human Resources, Law, and Public Works Administration. The Treasury Management division of the Finance Department is responsible for collecting the money from the utility customers.

The Water and Electric utilities also pay an amount to the General Fund as a Payment In Lieu of Taxes. This payment, with a legal authorization of City Charter Chapter 99, Article XII, Section 102 states that the Water and Electric utilities will pay an amount substantially equivalent to the sum which would be paid in taxes if the utilities were owned privately. The tax is equal to 7% of gross receipts and the property tax equivalent is equal to 33.33% of net fixed assets multiplied by the total City rate.

## Water and Electric Fund

Water and Electric Utility Fund accounts for the billing and collection of charges for water and electric service for most city residents. Revenues are used to pay for both operating expenses and capital expenditures to maintain these services.

# Sanitary Sewer Utility Fund

Sanitary Sewer Utility Fund accounts for the provision of sanitary sewer services to the residents of the City and a limited number of customers outside the city limits. All activities necessary to provide such services are accounted for in this fund.

# **Solid Waste Utility Fund**

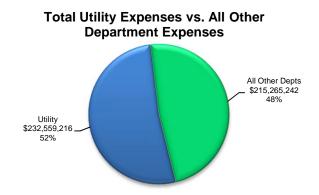

Solid Waste Utility Fund accounts for the revenues and expenditures of solid waste collection and operations at the landfill and the material recovery facility.

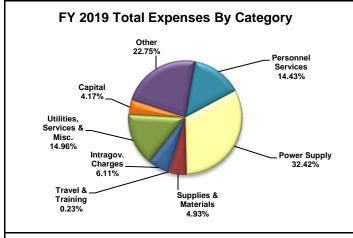

# Mid Missouri Solid Waste Management District

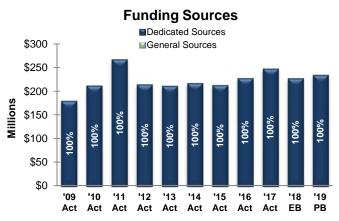

The Mid-Missouri Solid Waste Management District (MMSWMD) provides planning, technical and financial support in the area of solid waste management for an eight-county region that includes Audrain, Boone, Callaway, Cole, Cooper, Howard, Moniteau and Osage. Prior to FY 2016, this budget was a part of the Solid Waste budget.

## Storm Water Utility Fund

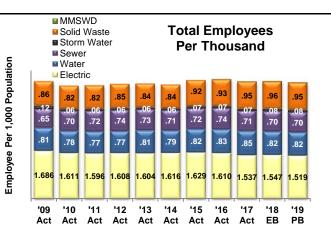

Storm Water Utility Fund accounts for storm water funding, implementation of storm water management projects, and provides maintenance to existing drainage facilities.

# **Water and Electric Bonds**

#### **Debt Service Ratios**

Debt coverage ratio is **net operating income** (operating revenues plus interest less operating expenses) divided by **total debt service** (annual interest plus annual principal payments on long-term debt).

The debt coverage ratio is a measure of the entity's ability to meet its annual interest and principal payments.

A ratio of less than 1.10 or a declining trend of three or more years is a negative factor and warrants close monitoring.

Credit rating firms look at this debt service coverage to determine the funds financial health and ability to obtain bonds in the future.

While the 1.10 credit rating benchmark generally only applies to revenue bonds, Water and Electric have both revenue bonds and special obligation bonds. For our analysis, we have included the total bond debt payment (on revenue and special obligation bonds).

For the period shown, the debt coverage ratio has been consistently above the 1.10 level.

### **Debt Service Information**

#### 09/29/09 Water and Electric Improvement Bonds (Interest rates: 3.00% - 4.125%)

Original Issue - \$16,725,000 Balance As of 9/30/2018 - \$15,815,000 Maturity Date - 10/1/2034

In September of 2009 the city issued \$16,725,000 in Water and Electric Improvement Bonds. The bonds are payable solely from, and secured by a pledge of the revenues of the Water and Electric system. The bonds were issued to provide funding for improvements to the Water Utility System.

#### 05/17/11 Water and Electric Refunding and Improvement Bonds (Interest rates: 3.00% - 5.00%)

Original Issue - \$84,180,000 Balance As of 9/30/2018 - \$70,025,000 Maturity Date - 10/1/2041

In May of 2011, the City issued \$84,180,000 of Water and Electric System Revenue Bonds. The bonds are to be paid by the net revenues of the system and are secured by a first lien on the revenues. \$12,465,000 of the bonds were issued to refund \$11,680,000 of the outstanding 2002 Water and Electric Refunding bonds. \$22,215,000 were issued to provide funding for improvements and additions to the City's water facilities, and \$49,500,000 were issued to purchase the Columbia Energy Center.

### 05/21/12 Electric Special Obligation Bonds (Interest rates: 2.00% - 5.00%)

Original Issue - \$25,400,000 Balance As of 9/30/2018 - \$20,275,000 Maturity Date - 10/1/2033

In May of 2012, the City issued \$25,400,000 of Electric Special Obligation Revenue Bonds. The bonds are planned to be payable solely from, and secured by, a pledge of revenues from the Electric System. The bonds were issued to refund the \$21,465,000 of the outstanding 2008 Electric Special Obligation Bonds.

#### 12/13/12 Electric Special Obligation Bonds (Interest rates: 2.00% - 4.00%)

Original Issue - \$39,955,000 Balance As of 9/30/2018 - \$35,460,000 Maturity Date - 09/01/2032

In December of 2012, the City issued \$39,955,000 of Electric Special Obligation Revenue Bonds. The bonds are planned to be payable solely from, and secured by, a pledge of revenues from the Electric System. The bonds were issued to refund the \$38,535,000 of the outstanding 2006 Electric Special Obligation Bonds.

# **Water and Electric Bonds**

## **Debt Service Information**

## 07/07/2014 Water and Electric System Revenue Refunding Bonds (Interest rates: 2.00% - 3.00%)

Original Issue - \$14,180,000 Balance As of 9/30/2018 - \$9,995,000

Maturity Date - 10/01/2028

In July of 2014, the City issued \$14,180,000 of Water and Electric System Revenue Refunding Bonds. The bonds are planned to be payable solely from, and secured by a pledge of the revenues of the Water and Electric system. The bonds were issued to refund the \$2,010,000 of the outstanding 2003 Water and Electric Series A Refunding Bonds and the \$12,745,000 of the outstanding 2004 Water and Electric Series A Improvement Bonds.

#### 08/05/2015 Water and Electric System Refunding & Improvement Revenue Bonds (Interest rates: 3.125% - 5.00%)

Original Issue - \$51,280,000 Balance As of 9/30/2018 - \$44,945,000 Maturity Date - 10/01/2045

In August 2015, the City issued \$51,280,000 of Water and Electric System Refunding & Improvement Revenue Bonds. The bonds are planned to be payable solely from, and secured by a pledge of the revenues by the Water and Electric system. \$18,065,000 of the bonds were issued to refund \$20,620,000 of the outstanding 2005 Water and Electric Series A Refunding & Improvement Bond. \$33,215,000 of the bonds were issued to provide funding for extending and improving the Electric Utility.

Note: This statement does not include capital addition, capital project, or debt principal expenses.

Operating revenues are above operating expenses for the ten year period shown. There is a gap between the revenues and expenses because part of the rates charged to customers are used to pay interest expenses on outstanding debt and other non-operating expenses as well as some capital project costs.

There has been a positive net position for all ten years except FY 2013, 2014, 2017 and FY 2019. In those years the net loss is due to increases in purchased power costs related to new contracts. In FY 2014, there was a significant operating transfer out to remove the transload facility from the Electric budget and set it up as a separate fund. In FY 2017 there was a \$2.7 million nonrecurring contract for the Columbia Energy Center rebuild.

The Financial Sources and Uses Statement is a management tool which provides a more complete look at the cash reserves for the operation compared to the expenses and other uses of the operation. This allows management to examine the projected ending cash reserves for the operation compared to a budgeted cash reserve target which provides useful information about the financial health of the fund.

This statement takes information from the Revenues, Expenses, and Changes in Net Position statement and subtracts out non-cash items (depreciation, loss on disposal of fixed assets, and GASB adjustments for interest revenue, pensions, and vacation liabilities). This statement also includes capital item purchases (such as fleet replacements), principal payments, and enterprise revenue that will be used to pay for capital project costs which are reflected on the balance sheet.

In years where uses are above sources, there are significant capital project expenses. The City must appropriate all of the cost of a capital project before a construction contract can be awarded, even though construction can take more than one year to complete. The City utilizes smaller utility rate increases over time to build up balances and then uses those balances to fund some of their capital projects. A number of operating increases are proposed in both Water and Electric over the next five years in order to improve the financial health of the operations and raise cash reserves to the budgeted cash reserve target.

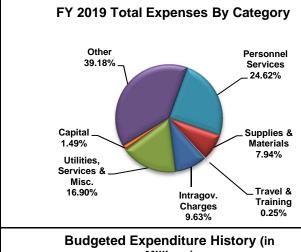

Unassigned cash reserves have been below the budgeted cash reserve target in FY 2013 to FY 2015 and FY 2017 to FY 2018. FY 2019 through FY 2022 are also projected to be below the budgeted cash reseve target. FY 2019 unassigned cash reserves are projected to be \$6,519,935 below the budgeted cash reserve target.

# Description

The Water Utility is responsible for the supply of safe drinking water and fire protection service to the City, by providing production, treatment, and distribution systems. The utility operates a well field in the Missouri River bottoms; the McBaine Water Treatment Plant; the Hillsdale, West Ash and South Pump Stations; elevated water towers; and a distribution system. The personnel test and set meters, install and maintain fire hydrants, operate a laboratory and water testing facility, perform all maintenance on towers, lines, leak repair, customer service calls, flush mains and service valves, and maintain a backflow prevention system. Crews do some extension of water mains and some is contracted to outside companies. The Water Utility serves over 49,200 customers.

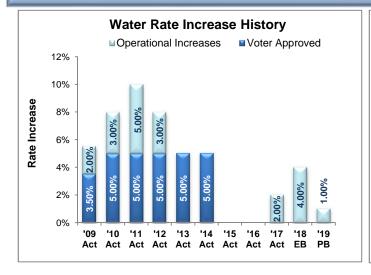

The sale of water is the major revenue source for this fund. The growth rate in new customers has slowed to about 0.5% per year.

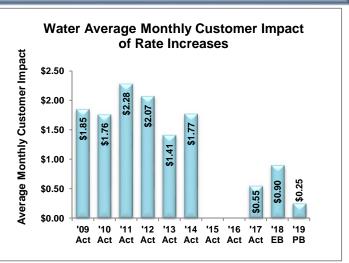

## Highlights/Significant Changes

A proposal to increase rates that will provide a 1% revenue increase is included. This increase is to cover increased operation and maintenance cost. The average monthly customer impact is projected to be \$0.25. The increase is to cover increased operation and maintenance cost and ensure that we have adequate debt coverage (including PILOT expenses) and are able to pay current debt obligations.

<sup>+</sup> In FY 2018, 2.00 FTE Water Distribution Operators were added to the water flushing crew.

<sup>^</sup> In FY 2018, (0.40) FTE Meter Reader position (split between Water and Electric) was reassigned to a Services Coordinator position and budgeted 100% in Electric.

<sup>^</sup> In FY 2019, (0.40) FTE Transload Operations Supervisor and (0.40) FTE Equipment Operator III positions were reallocated back to Transload from Water

<sup>+++</sup> In FY 2019, 0.50 FTE Utility Service Worker was reallocated from Electric to Water.

<sup>^</sup> During FY 2018, (0.40) FTE of this position was reallocated to Electric.

<sup>^</sup> In FY 2019, (4) 1.00 FTE positions were reallocated to Engineering as a result of the Lab moving from Distribution to Engineering.

# **Water Utility - Capital Projects**

# **Fund 5502**

# **Major Projects**

This budget provides funding for the following projects:

- Annual Fire Hydrants & Valve Replacements
- Annual Main Relocation for Streets & Highways
- Annual Meter Replacement Program
- Annual New Service Connections/Installs
- Annual Water Main Replacements

## Fiscal Impact

The budget includes the major capital improvements that are outlined in our Capital Improvement Program. Any future proposed rate increases do not include capital.

# Highlights/Significant Changes

These capital investments in the water system will help insure continued reliable service. A bond proposal will be presented to voters August 7, 2018.

# **Water Impact of Capital Projects**

Annual Close Loops - W0123 [ID: 586]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Differential Payments - W0143 [ID: 642]

Expansion of system requires additional maintenance

Annual Fire Hydrants & Valve Replacements - W0127 [ID: 587]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Main Relctn for Streets & Highways - W0125 [ID: 589]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual New Srvc Connections:Install/Rpl W0128 [ID: 592]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Water Main Replacements - W0130 [ID: 590]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Backup Generators for ASR's & Pump Stations W0150 [ID: 649]

Increased maintenance requirement

Drill Alluvial Wells # 16 #17 and #18 - W0138 [ID: 582]

Incremental impact on operational costs. Three additional wells to maintain.

Refurbish Existing Deep Well for Emergency-W0140 [ID: 581]

Incremental impact on operational costs. An additional ASR well to maintain.

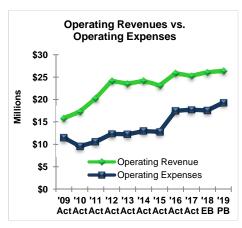

West Ash Upgrades W0145 [ID: 644]

Will provide greater flexibility in operation

·				
Change in Net Position	\$1,516,604	\$2,354,556	\$3,013,596	\$854,215

Note: This statement does not include capital addition, capital project, or debt principal expenses.

Operating revenues are above operating expenses because part of the rates charged to customers are used to pay interest expenses on outstanding debt and other non-operating expenses as well as some capital project costs (which are not reflected on the revenues, expenses, and changes in net position statement).

There has been a positive net position for all years shown except FY 2009. With exception of a few years, the net position has been fairly consistent.

The Financial Sources and Uses Statement is a management tool which provides a more complete look at the cash reserves for the operation compared to the expenses and other uses of the operation. This allows management to examine the projected ending cash reserves for the operation compared to a budgeted cash reserve target which provides useful information about the financial health of the fund.

This statement takes information from the Revenues, Expenses, and Changes in Net Position statement and subtracts out non-cash items (depreciation, loss on disposal of fixed assets, and GASB adjustments for interest revenue, pensions, and vacation liabilities). This statement also includes capital item purchases (such as fleet replacements), principal payments, and enterprise revenue that will be used to pay for capital project costs which are reflected on the balance sheet.

In the years where uses are above sources, there are significant capital project expenses. The City must appropriate all of the cost of a capital project before a construction contract can be awarded, even though construction can take more than one year to complete. The City utilizes smaller utility rate increases over time to build up balances and then uses those balances to fund some of their capital projects. A number of operating increases, ranging from 1% to 2% are proposed over the next five years in order to keep the debt coverage ratio at the 1.10 credit rating level. Credit rating firms look at this debt service coverage to determine the funds financial health and ability to obtain bonds in the future.

Unassigned cash reserve fell below the budgeted cash reserve target in FY 2017 and is projected to remain below the budgeted cash reserve target in FY 2018. This is due to an increase in capital projects and operating expenses. For the next five years, the cash reserves is projected to be above the target due to a decrease in capital project funding. A ballot is planned in August of 2018 to provide funding for capital project needs. During FY 2018, \$2 million was added to unassigned cash reserve from water tap fees which were moved from restricted to unrestricted cash.

#### Description

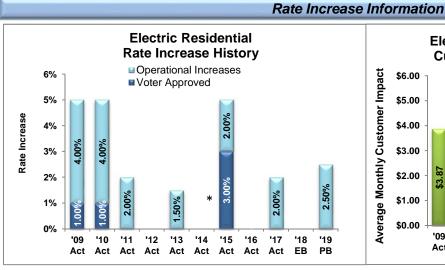

The Electric Utility provides the citizens of Columbia with a safe, reliable and cost effective electric supply. This requires the Department to operate and maintain the electric generating and distribution system to serve over 50,200 customers.

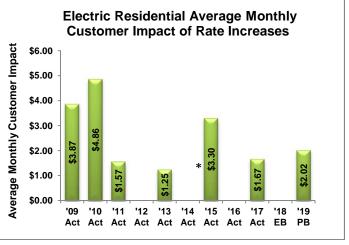

The sale of electricity is a major revenue source for this fund. The growth rate in new customers is about 1.0% per year. In addition to retail sales to customers, the Electric Utility receives revenues as a transmission owning member of the Midcontinent Independent System Operator (MISO) and by providing dark fiber services to customer groups defined by the State of Missouri.

## Highlights/Significant Changes

 A proposal to increase rates that will provide a 2.5% revenue increase is included. This increase is to ensure that we have adequate debt coverage (including PILOT Exp) and are able to pay current debt obligations. The average monthly customer impact is projected to be \$2.02.

# **Electric Utility - Capital Projects**

# **Major Projects**

This budget provides funding for the following projects:

Numerous Annual Projects:

Commercial Expansion

Distribution Transformers and Capacitor Replacement

Fiber Optic Cable

**New Electric Connections** 

Relocation of Distribution Lines

Replacement of Existing Overhead

Replacement of Existing Underground

Residential Expansion

Street Light Additions

Substation Feeder Extension

Replacement of Existing Transmission

**Underground Conversion** 

- Distribution Automation
- Mercury Vapor Streetlight Replacement
- Truman Solar Feeders
- Reconfiguration of Substation Feeders

# Highlights/Goals

Projects authorized by voters in the April 2015 ballot proposal are included in this budget.

## Fiscal Impact

This includes the major capital improvements that are outlined in our Capital Improvement Program.

 Due to the significant delay in the major substation and transmission projects and the requirement to spend down funds from the bond sale, transfers between enterprise funded projects and bond funded projects will be necessary to ensure bond funds are spent within the required time period.

## **Electric Impact of Capital Projects**

Annual Commercial Expansion - E0117 [ID: 556]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Distrib. Transformers & Capacitors - E0021 [ID: 559]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Fiber Optic Cable - E0082 [ID: 560]

**Electric** 

Total

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual New Electric Connections - E0053 [ID: 563]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Replacement of Existing UG System - E0107 [ID: 562]

Work is performed because of numerous faults on a line. Replacing problem cable will reduce outages.

Annual Residential Expansion - E0116 [ID: 564]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Street Light Additions - E0052 [ID: 565]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Substation Feeder Additions - E0115 [ID: 566]

Incremental impact on operational costs. General growth in system will require additional maintenance with periodic increase in staff.

Annual Underground Conversion - E0027 [ID: 555]

Long-term could reduce maintenance

More's Lake Restoration - E0204 [ID: 1982]

W&L ceased using lake for ash handling in September 2015.

New South Side 161/13.8 Kv Substation - E0121 [ID: 551]

Additional substation to maintain may require additional staff.

Annual and 5 Year Capital Projects

\$26,850,000

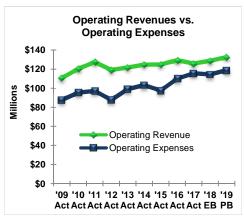

\$8,350,000

D = Year being designed; C = Year construction will begin.

Total Net Transfers and Capital Contributions	(\$11,694,308)	(\$13,061,667)	(\$13,028,143)	(\$13,426,461)
Change in Net Position	(\$6,862,641)	\$373,314	(\$1,142,612)	(\$2,175,307)
Note: This statement does not include capital addition, capital pro	niect or debt principal e	vnonsos		

Note: This statement does not include capital addition, capital project, or debt principal expenses.

Operating revenues are above operating expenses because part of the rates charged to customers are used to pay interest expenses on outstanding debt and other non-operating expenses as well as some capital project costs.

There has been a positive net position for all years shown except FY 2013 and FY 2014 and FY 2017 to FY 2019. In those years the net loss is due to increases in purchased power costs related to new contracts. In FY 2014, there was a significant operating transfer out to remove the transload facility from the Electric budget and set it up as a separate fund. In FY 2017 the net loss is due to an increase in purchased power costs, and \$2.7 million nonrecurring contract for the Columbia Energy Center rebuild. FY 2018 and 2019 net loss is due to lower revenues being projected. FY 2019 includes a 2.5% operating rate increase.

## Financial Sources and Uses Electric Utility Fund

The Financial Sources and Uses Statement is a management tool which provides a more complete look at the reserves for the operation compared to the expenses and other uses of the This allows management to examine the projected ending cash reserves for the operation compared to a budgeted cash reserve target which provides useful information about the financial health of the fund.

This statement takes information from the Revenues, Expenses, and Changes in Net Position statement and subtracts out non-cash items (depreciation, loss on disposal of fixed assets, and GASB adjustments for interest revenue, pensions, and vacation liabilities). This statement also includes capital item purchases (such as fleet replacements), principal payments, and enterprise revenue that will be used to pay for capital project costs which are reflected on the balance sheet.

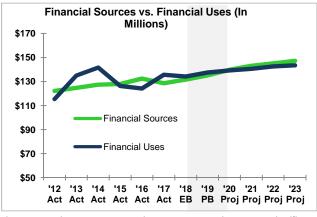

\$28,287,809

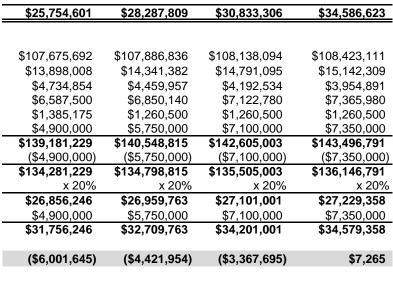

\$2,545,497

\$25,754,601

\$2,533,208

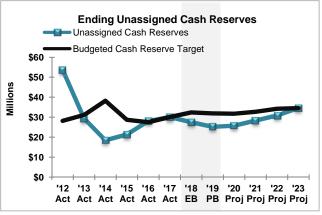

\$0 In years where uses are above sources, there are significant capital project expenses. The City must appropriate all of the cost of a capital project before a construction contract can be awarded, even though construction can take more than one year to complete. The City utilizes smaller utility rate increases over time to build up balances and then uses those balances to fund some of their capital projects. A series of operating rate increases are proposed for FY 2019 - FY 2023 ranging from 1% to 3% (shown below) in order to improve the financial health of the operation and raise reserves up to the budgeted cash reserve target by FY 2023.

1.00%

1.83

For the years shown, unassigned cash reserve has been below the budgeted cash reserve target for FY 2014 - FY 2017 and is projected to be below the budgeted cash reserve target for FY 2018 - FY 2022. As the five year forecast projects, the department has made significant cuts to get the fund more in line with the budgeted cash reserve target. Previous bond issues have been refinanced. While this will result in interest savings over the life of the bond issues, there will be several years when debt service costs will be higher amounts. There will also be a second sale of the current bond authority and the \$3 million reserve requirement will come from enterprise funds. Operating rate increases are planned for the next five years to raise cash reserves up to the budgeted cash reserve target by FY 2023.

## Description

The Sewer Utility is charged with the responsibility to protect the public health and to ensure minimal impact upon the aquatic environment by adequate collection and treatment of wastewater within a regional area including Columbia. This is achieved by engineering review of proposed and existing facilities and through effective and economical operation and maintenance of collection and treatment systems.

Sewer charges are the major revenue source for this fund. There are approximately 49,423 Sewer Utility customers.

## **Department Objectives**

To ensure new construction meets current Federal, State and City requirements. To provide the lowest practical cost for maintaining sanitary sewer facilities and resources. To provide proper treatment of wastewater by complying with the standards imposed for effluent discharged to the environment. To provide a prudent, reasonable, and responsible approach to meeting the objectives through careful management of the material and human resources provided for that purpose.

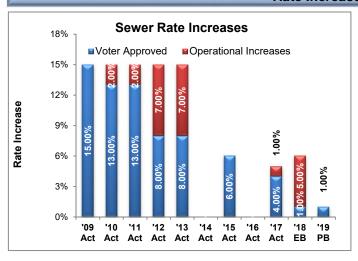

## Highlights/Significant Changes

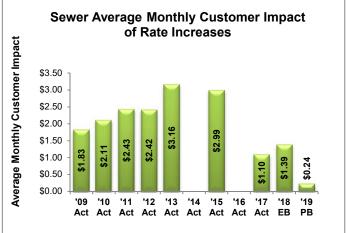

## <u>Strategic Priority: Infrastructure - Connecting the Community</u>

- In FY 2019 sewer rates are proposed to increase by 1% for voter approved bond projects and costs from the 2013 ballot measure.
- In FY 2019 the Sewer and Storm Water Utilities will seek approval from City Council for the Wastewater and Storm Water Integrated Master Plan and begin the implementation. This will require a voter approved ballot issue, which includes future rate increases, to implement the plan.
- A 0.80 FTE Senior Project Compliance Inspector position has been added for FY 2019 to perform contract management and regulatory compliance activities on capital projects.
- The Sewer Utility will begin design of the WWTP Phase 2 Improvements - Digester Complex project. The Sewer Utility will continue the construction of Private Common Collector Elimination projects.

## Rate Increase Information

## **Debt Coverage Ratios**

Debt coverage ratio is **net operating income** (operating revenues plus interest income less operating expenses) divided by **total debt service** (annual interest plus annual principal payments on long-term debt).

The debt coverage ratio is a measure to show the entity's ability to meet its annual interest and principal payments.

A ratio of less than 1.10 or a declining trend of three or more years is a negative factor and warrants close monitoring.

Credit rating firms look at this debt service coverage to determine the funds financial health and ability to obtain bonds in the future.

For the period shown, the debt coverage ratio has been consistently above the 1.10 level.

## Sanitary Sewer - Capital Projects

## **Major Projects**

Voters approved a \$32.3 million revenue bond issue in November 2013 which provides funding for several sewer improvement projects. Projects include Inflow and Infiltration reduction efforts, collection system rehabilitation, Waste Water Treatment Plant digester improvements, private common collector elimination (PCCE), economic development sewer extensions

In FY 2019 sewer rates are proposed to increase by 1% for voter approved bond projects and costs from the 2013 ballot measure.

Fiscal Impact

## Highlights/Significant Changes

- The CIP projects to be completed by the end of FY 2018 include FY18 Sewer Main Rehabilitation Project, Upper Hinkson Outfall Extension, College Avenue Sewer Replacement, PCCE #24 St. James and St. Joseph, PCCE #39 Hubbell Drive, Phase 1 and 2 of PCCE #8 Thilly, Lathrop & Westmount, and Phase 1 of PCCE #3 Stewart, Ridge, & Medavista.
- The CIP projects that are anticipated to be completed or under construction in FY 2019 include Upper Merideth Stream Bank Stabilization, Phase 3 and 4 of PCCE #8 Thilly, Lathrop & Westmount, Phase 2 of PCCE #3 Stewart, Ridge, & Medavista, Phase 1 of PCCE #16 Bingham Road & West Ridgeley, and Columbia Country Club Sewer Replacement.
- Other CIP projects that are or will be in design and easement acquisition during FY 2019 include future phases of PCCE # 16 - Bingham Rd & West Ridgeley Rd and PCCE #3 Stewart, Ridge & Medavista, PCCE #18 Spring Valley Road, Woodrail Sewer Replacement Project, PCCE #27 Grace Ellen, WWTP Phase 2 Improvements - Digester Complex project.
- The Sewer Utility will begin another \$2.7 million sewer main and manhole rehabilitation and I & I project by "no-dig" methods where feasible in FY 2019 as part of the ongoing effort to reduce inflow and infiltration and rehabilitate our aging infrastructure.
- The Inflow and Infiltration (I&I) Reduction Program continues to identify public and private defects in the sanitary sewer system. Rehabilitation work to eliminate defects in the Flat Branch sub-basin is being addressed as part of the FY 2018 rehabilitation projects and will continue in FY 2019.

2013 2018

## **Sewer Impact of Capital Projects**

Annual Inflow & Infiltration Program - SW251 [ID: 1718]

Reduce I&I, lower treatment costs and reduce SSOs and sewer backups

Annual Private Common Collectors - SW112 [ID: 752]

Will reduce inflow and infiltration which will reduce treatment costs and improve the efficiency of the collection system

B-8 Relief Sewer - Rangeline & Vandiver [ID: 794]

Needs evaluation to determine if improvement will reduce the incidence of mostly wet weather SSOs due to capacity issues.

B-9 Relief Sewer - Garth & Vandiver [ID: 795]

Needs evaluation to determine if relief sewer will reduce the incidence of mostly wet weather SSOs due to capacity issues.

Calvert Drive Sewer Relocation - SW252 [ID: 1698]

Eliminate sewer main from under a building.

College Avenue Sewer Replacement - SW512 [ID: 2042]

Update failing infrastructure

Columbia Country Club - SW515 [ID: 2050]

Update failing infrastructure

Court and Hickory Street Sewer Relocation - SW505 [ID: 1890]

Reduce maintenance and inflow and infiltration.

Cow Branch Outfall [ID: 725]

Reduce operation cost by \$15,000. Increase in line maintenance cost would be offset by decrease in pump station maintenance cost

FBRS - 4th Street - Elm to Rogers/Broadway -SW258 [ID: 1864]

none

FBRS - Elm & 6th Street #3- SW257 [ID: 1863]

None

FBRS - Stadium to Elm #1- SW256 [ID: 1862]

None

FBRS to Turner Relief Sewer #2- SW250 [ID: 1793]

none

FY2016 Sewer Main Rehab [ID: 2016]

This project will reduce I&I and sanitary sewer overflows and basement backups.

Haystack Acres Pump Station Interceptor SW230 [ID: 1304]

Eliminating the two pump stations will reduce operational cost by \$15,000 per year.

Henderson Branch Sewer : Midway Sewer Ext -SW255 [ID: 1060]

Increase maintenance and operations costs.

Hominy Branch Outfall Ext:LOW Rd-Mxco Grvl [ID: 727]

Add \$12,000/yr to maintain and operate sewer

Hominy Branch Outfall relief Sewer SW210 [ID: 797]

Add \$11,000/yr to operate & maintain sewer

Hwy 63 Connector south of I-70 - SW516 [ID: 2041]

Reduce frequency of cleaning required.

Little Bonne Femme Outfall [ID: 2040]

Increased operations and maintenance cost.

Little Bonne Femme Regional Pump Station [ID: 729]

Add \$100,000/yr to operate and maintain new sewer lines & pump stations

D = Year being designed; C = Year construction will begin.

## **Sewer Impact of Capital Projects**

#### Sewer

Lower Southwest Outfall Relief Sewer - SW261 [ID: 798]

Needs to be evaluated to determine whether or not this project will reduce incidence of wet weather SSOs.

Mill Creek Trunk Sewer [ID: 2046]

Increased operations and maintenance costs.

North Garth Sewer Replacement [ID: 2018]

Reduce maintenance.

North Grindstone Outfall Ext. Phase III SW214 [ID: 732]

Increase maintenance and operation costs.

PCCE #3 - Stewart & Medavista - SW198 [ID: 780]

Reduce maintenance calls and inflow and infiltration. Increase feet of sewer system for maintenance.

PCCE #16 - Bingham Rd & West Ridgeley Rd SW240 [ID: 1366]

Reduce maintenance calls and inflow and infiltration. Increase feet of sewer system for maintenance.

PCCE #17 - Wilson Street / Ross Street SW226 [ID: 1341]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #18 - Spring Valley Road SW241 [ID: 1365]

Reduce maintenance calls and inflow and infiltration. Increase feet of sewer system for maintenance.

PCCE #20 - Ridgemont - SW248 [ID: 1369]

Reduce maintenance calls and inflow and infiltration. Increase feet of sewer system for maintenance.

PCCE #21 - Stanford - SW507 [ID: 1912]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #22 - Shannon Place - SW502 [ID: 1603]

Update failing infrastructure

PCCE #23 - Lakeshore Drive & Edgewood Ave - SW503 [ID: 1911]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #24 - St. James & St. Joseph - SW253 [ID: 1604]

Update failing infrastructure

PCCE #25 - Glenwood & Redbud - SW504 [ID: 1605]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #27 - Grace Ellen - SW254 [ID: 1606]

update failing infrastructure

PCCE #28 - Hickory Hill Drive & Sunset Drive SW521 [ID: 1910]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #29 - East Sunset Lane - SW522 [ID: 1909]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #30 - West Stewart, Edgewood, Westmount ave [ID: 1908]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #31 - Oakwood Court [ID: 1907]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #33 - Lyon Street - SW523 [ID: 1906]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #34 - Forest Hill Court & Ridge Road [ID: 1905]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #35 - Richmond Avenue [ID: 1904]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #38 - North Eighth Street [ID: 1903]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

PCCE #40 - Sunset Dr, Prospect St, Crestland Ave [ID: 1902]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

D = Year being designed; C = Year construction will begin.

# Sewer Annual and 5 Year Capital Projects Proposed Funding Source FY 2019 FY 2020 FY 2021 FY 2022 FY 2023 Cost D C

## **Sewer Impact of Capital Projects**

#### Sewer

PCCE #41 - W Stewart Road & West Blvd [ID: 1901]

Increase feet of sewer system line for maintenance. Reduce maintenance calls and inflow and infiltration.

Rocky Fork Outfall Sewer [ID: 733]

Add \$34,000/yr to maintain and operate sewer

SD #172 Northland Drive - SW506 [ID: 1977]

Eliminate on site systems, slight increase to collections infrastructure, adds customers

Sewer District #171 - Crites Lane - SW263 [ID: 1361]

Eliminate on site systems, slight increase to collections infrastructure, adds customers.

Sewer District - Hillcreek Road [ID: 1370]

Eliminate on site systems, slight increase to collections infrastructure, adds customers.

South Providence Sewer Replacement [ID: 2099]

Reduction in cleaning frequency for maintenance.

Tupelo-larch Sewer Replacement - SW513 [ID: 2043]

Reduce incidence of wet weather SSOs.

Upper Bear Creek Sewer Replacement [ID: 1529]

Reduce potential for mostly wet weather SSOs due to capacity issues.

Upper Hinkson Creek Outfall Ext. SW213 [ID: 806]

Eliminate a pump station, simplifying maintenance. Additional \$27,810 to maintain and operate sewer.

Upper Southwest Outfall Relief [ID: 800]

Reduce potential for mostly wet weather SSOs due to capacity issues.

WWTP - Digester Complex Improvements - SW508 [ID: 1303]

Reduce maintenance.

WWTP Engineering Addition - SW264 [ID: 1972]

Reduction in budget for utilities, custodial services, etc. Will allow for increased interaction between design and operations/maintenance personnel.

WWTP I&I Storage [ID: 2045]

Reduce the incidence of wet weather SSOs.

WWTP Improvement Project Phase I - SW194 [ID: 791]

Add \$500,000/yr to operate and maintain expanded facility. Will need to add at least (2) employees when the plant opens.

WWTP Mechanical Screens Wetland Pump Station SW520 [ID: 2048]

Significantly reduce manual labor maintenance. Increase to mechanical maintenance.

WWTP SCADA System Replacement [ID: 2044]

Improved operations and maintenance.

## Sanitary Sewer Utility Fund - Debt Service

## **Debt Service Information**

#### 06/01/99 Sanitary Sewerage System Series A (Interest rate: 3.625% - 5.25%)

Original Issue - \$3,730,000

Balance As of 9/30/2018 - \$445,000

Maturity Date - 1/1/2020

In 1999 the City participated in the State Revolving Loan Program to issue \$3,730,000 in Bonds. Voters approved the issuance of these Bonds in November of 1997.

## 12/01/99 Sanitary Sewerage System Series B (Interest rate: 4.125% - 6.00%)

Original Issue - \$1,420,000

Balance As of 9/30/2018 - \$170,000

Maturity Date - 7/1/2020

In 1999 the City participated in the State Revolving Loan Program to issue \$1,420,000 in Bonds. Voters approved the issuance of these Bonds in November of 1997.

## 11/01/00 Sanitary Sewerage System Series B (Interest rate: 4.35% - 5.625%)

Original Issue - \$2,445,000

Balance As of 9/30/2018 - \$435,000

Maturity Date - 7/1/2021

In 2000, the City participated in the State Revolving Loan Program to issue \$2,445,000 in bonds. Voters approved the issuance of the Bonds in November of 1997.

#### 05/01/02 Sanitary Sewerage System Series A (Interest rates: 3.00% - 5.375%)

Original Issue - \$2,230,000

Balance As of 9/30/2018 - \$645,000

Maturity Date - 1/1/2023

In 2002, the City participated in the State Revolving Loan Program to issue \$2,230,000 in bonds. Voters approved the issuance of these bonds in November of 1997

## 04/01/03 Sanitary Sewerage System Revenue Bonds (Interest rates: 2.00% - 5.25%)

Original Issue - \$3,620,000

Balance As of 9/30/2018 - \$1,250,000

Maturity Date - 1/1/2024

In 2003, the City participated in the State Revolving Loan Program to issue \$3,620,000 in bonds. Voters approved the issuance of these bonds in November of 1997.

## 05/28/04 Sanitary Sewerage System Revenue Bonds (Interest rates: 2.00% - 5.25%)

Original Issue - \$650,000

Balance As of 9/30/2018 - \$265,000

Maturity Date - 1/1/2025

In 2004, the City participated in the State Revolving Loan Program to issue \$650,000 in bonds. Voters approved the issuance of these bonds in November of 1997.

## 11/01/06 Sanitary Sewerage System Revenue Bonds (Interest rates: 4.00% - 5.00%)

Original Issue - \$915,000

Balance As of 9/30/2018 - \$415,000

Maturity Date - 7/1/2026

In November 2006, the City participated in the State Revolving Loan Program to issue \$915,000 in bonds. Voters approved the issuance of these bonds in November 2003.

### 11/01/07 Sanitary Sewerage System Revenue Bonds (Interest rates: 4.00% - 5.00%)

Original Issue - \$1,800,000

Balance As of 9/30/2018 - \$985,000

Maturity Date - 1/1/2028

In November 2007, the City participated in the State Revolving Loan Program to issue \$1,800,000 in bonds. Voters approved the issuance of these bonds in November 2003.

## Sanitary Sewer Utility Fund - Debt Service

## **Debt Service Information**

## 09/29/09 Sanitary Sewerage System Taxable Revenue Bonds (Build America Bonds/Direct Subsidy) (Interest rates: 5.44% - 6.02%)

Original Issue - \$10,405,000

Balance As of 9/30/2018 - \$10,405,000

Maturity Date - 10/1/2034

In September 2009, the City issued \$10,405,000 of Taxable Revenue Bonds. The bonds were issued for the purpose of constructing, improving, and extending the City-owned sanitary sewer utility. Voters authorized the issuance of \$18,500,000 of sanitary sewer system revenue bonds in 2003, of which \$9,526,000 remained and was allocated to this issue. The remaining \$879,000 was from 2008 voter approval of \$77,000,000.

## 01/14/10 Sanitary Sewerage System Revenue Bonds (State of Missouri - Direct Loan Program - ARRA) (Interest rates: 1.49%)

Original Issue - \$59,335,000

Balance As of 9/30/2018 - \$43,780,700

Maturity Date - 7/1/2032

In January 2010, the City participated in the State Revolving Loan Program to issue \$59,335,000 in bonds. The bonds were issued for the purpose of improvements for the wastewater treatment plant. Voters approved the issuance of these bonds in April 2008. \* The bond issue of \$59,335,000 is a "not to exceed" amount. Interest expense, included in the debt service requirements listed, is based on principal of \$59,335,000. Actual interest expense will be 1.49% of the actual draw downs made towards the maximum amount of \$59,335,000.

#### 03/29/12 Sewerage System Revenue Bonds (Interest rates: .35% - 3.75%)

Original Issue - \$9,365,000

Balance As of 9/30/2018 - \$7,620,000

Maturity Date - 10/01/2036

In March 2012, the City issued \$9,365,000 of Sewerage System Revenue bonds. The bonds were issued for the purpose of constructing, improving and extending the City-owned sanitary sewer utility. This issuance is part of a 2008 voter approval of \$77,000,000.

## 05/21/12 Special Obligation Refunding Bonds, Series 2012 B (Interest rate: 2.00%)

Original Issue - \$1,465,000

Balance As of 9/30/2018 - \$515,000

Maturity Date - 10/01/2020

In May 2012, the City issued \$29,515,000 of Special Obligation Refunding Bonds. A portion of this issue, \$1,465,000, was to currently refund the outstanding portion, \$1,525,000 of the City's Special Obligation Bonds, Series 2001A.

## 03/31/15 Sanitary Sewerage System Revenue Bonds (Interest rates: 3.00% - 5.00%)

Original Issue - \$18,200,000

Balance As of 9/30/2018 - \$16,510,000

Maturity Date - 10/01/2035

In March 2015, the City issued \$18,200,000 of Sewerage System Revenue Bonds. The bonds were issued for the purpose of constructing, improving and extending the City-owned sanitary sewer utility. This issuance is part of a 2008 voter approval of \$77,000,000. (\$7,421,000) and a 2013 voter approval of \$32,340,000 (\$10,779,000).

## 12/8/15 Sanitary Sewerage Special Obligation Revenue Refunding Bonds (Interest rates 2.00%-5.00%)

Original Issue - \$4,710,000

Balance As of 9/30/2018 - \$3,590,000

Maturity Date - 2/1/2026

In December 2015, the City issued \$7,080,000 of Special Obligation Revenue Refunding Bonds. A portion of this issued, \$4,710,000 was to currently refund the outstanding portion, \$4,710,000 of the City's Special Obligation Revenue Refunding and Improvement Bonds Series 2006, sewer portion.

## Sanitary Sewer Utility Fund - Debt Service

## **Debt Service Information**

#### 4/19/17 Sanitary Sewerage Systems Revenue Bonds (Interest rates: 2.00%-5.00%)

Original Issue - \$15,790,000

Balance As of 9/30/2018 - \$15,790,000

Maturity Date - 10/01/2037

In April of 2017, the City issued \$15,790,000 of Sewerage Systems Revenue Bonds. The bonds were issued for the purpose of constructing, improving and extending the City-owned sanitary sewer utility. This issuance is part of a 2013 voter approval of \$32,340,000.

## Proposed FY 2019 Sanitary Sewerage Systems Revenue Bonds (Anticipated Interest rate: 3.75%)

Original Issue - \$6,500,000 Balance As of 9/30/2018 - \$0 Maturity Date - 10/01/2039

During FY 2019, the City is planning on issuing \$6,500,000 of Sewerage Systems Revenue Bonds. The bonds were issued for the purpose of constructing, improving and extending the City-owned sanitary sewer utility. This issuance is part of a 2013 voter approval of \$32,340,000 and \$1.2 million from 2008 voter approved (that was not reimbursed from the state).

In years where financial uses are above financial sources, there are significant capital project costs. The City must appropriate all of the cost of a capital project before a construction contract can be awarded, even though construction can take more than one year to complete. The City utilizes smaller utility rate increases over time in order to build up balances and then uses those balances to fund some of their capital projects. For FY 2019, financial sources include a 1% voter approved rate increase.

When the IMP is developed, a rate increase will be needed. No rate increase for IMP have been budgeted.

Ending cash reserves may vary as the fund needs to build up funds for future capital projects. Ending cash is projected to be slightly above the budgeted cash reserve target for FY 2019.

Ending unassigned cash reserves have been above the budgeted cash reserve target since FY 2011. Excess cash reserves are being used down in future years on capital projects which include several improvements at the waste water treatment plant. During FY 2019 the department will seek approval from the City Council for the waste water and storm water integratered master plan. A ballot will need to be approved in order to implement the plan. The project costs and required rate increases to implement the plan are not included in this forecast.

### Description

This utility is dedicated to the management of resources for the protection of public health. Human resources are managed to provide efficient refuse and recycling collection, material recovery, and disposal services utilizing sound engineering practices. Natural resources are managed through education, refuse and recycling management for the protection of the environment. There are over 48,350 Solid Waste Utility accounts served by the City.

### **Department Objectives**

To provide an efficient collection, material recovery, and disposal service while protecting the environment.

### Highlights/Significant Changes

- No residential or commercial rate increases proposed for FY 2019.
- Landfill fees per ton are proposed to increase by \$3.00 or 5.77%.

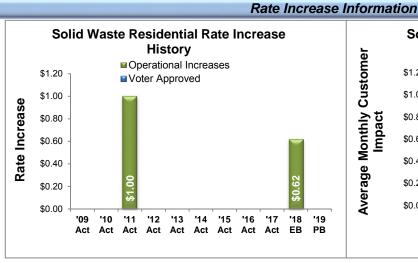

### Strategic Priority: Operational Excellence

 Food waste collection and composting program continues to grow as more customers participate in the food waste program.

### Highlights/Significant Changes (cont.)

- The Utility has transitioned 27 heavy-duty collection vehicles to Compressed Natural Gas (CNG) which is approximately 50% of the heavy-duty collection vehicles. Fuel cost savings continue to be realized with CNG vehicles.
- Additional improvements were made to the landfill gas collection system.
- Recycling services in the CID continue to grow as more customers participate in recycling.
- Utility added 3.00 FTE positions in FY 2018 (1.00 FTE in Residential Recycling, 1.00 FTE in Commercial Trash & 1.00 FTE in Solid Waste Administration). An additional 0.50 FTE is planned for FY 2019.
- Commercial recycling continues to transition rear loading cardboard containers to front load cardboard containers. This change allows the utility to increase front loading cardboard collection routes which are more efficient and a safer collection method.
- A cost of service study is planned for FY 2020 and rates will be adjusted once that information is received.

### **Solid Waste - Capital Projects**

### **Major Projects**

- Bioreactor Landfill Disposal Cell # 6: This project begin construction in the fall of 2017 and was completed in August of 2018. This is the last disposal cell to be constructed within the permitted area at the Columbia Landfill.
- Leachate Storage and Handling project: This project was constructed as part of the Bioreactor Cell #6 project and was completed in August 2018. The project will address MDNR regulatory compliance limits for the leachate that the Landfill sends to the Columbia Wastewater Treatment Facility.
- Landfill Wetlands project: This project was constructed at the Columbia Landfill as part of the Sewer Utility's Upper Hinkson Outfall Extension Project and was completed in July 2018. This project will provide additional polishing and pollutant removal of storm water discharges from the on site sedimentation basins.

#### CIP projects scheduled for fiscal year 2019:

- Construct improvements to the fueling station at the existing Landfill Fueling station to accommodate collection vehicles that will be stored on site now that operations has relocated to the new Administration and Collection facility.
- Construct improvements to the Landfill security gate in order to maintain proper security measures for the Landfill site while allowing collections and administrative staff to enter and exit the landfill during the early morning and evening hours when the Landfill is closed to the public.
- Landfill Expansion Permitting is scheduled to begin in FY 2019. This is a multi-year project to get authority for new bioreactor landfill disposal area within the footprint of the City's existing Landfill property. The project involves extensive subsurface and geotechnical evaluations, public involvement and community outreach, landfill conceptual design, land permit application, and necessary regulatory support to get approvals from MDNR.

### Fiscal Impact

### Minimal impact on operations.

- Bioreactor Cell #6 will allow the landfill to stay in business which is critical to the financial health of the utility.
- Landfill tonnage rates are proposed to increase by 5.77% in FY 2019.

### **Solid Waste Impact of Capital Projects**

Annual Landfill Gas Recovery Project - RF031 [ID: 883]

Gas recovery system required in order for the landfill to meet State and Federal regulations.

Bioreactor Landfill Cell #6 - RF059 [ID: 1522]

Project is necessary in order to provide sufficient airspace to continue refuse disposal operations at the Columbia Landfill.

Bioreactor Landfill Cell #7 [ID: 1944]

Continued disposal services for city collections as well as regional waste disposal.

Bioreactor Landfill Cell #8 [ID: 2037]

Allow landfilling operations to continue.

Bioreactor Landfill Cell #9 [ID: 2038]

Allow landfilling operations to continue.

Landfill Employee Parking Lot [ID: 2097]

Improve employee safety

Landfill Expansion Permitting - RF061 [ID: 1585]

Preparation for future operation

Landfill Fuel Station Pump Addition - RF060 [ID: 1995]

Daily use by route trucks once collections relocates to the site

Landfill Scale House Relocation & Road Improvement [ID: 2095]

Improve vehicular safety and improve reliability of scale house by providing redundant inbound and outbound scales

www.CoMo.gov

Landfill Wetlands - RF057 [ID: 1788]

Help maintain regulatory compliance; improve water quality.

Leachate Storage & Handling - RF051 [ID: 1778]

Attain clean water regulatory compliance for WWTP; provide feed water for bioreactor operation.

D = Year being designed; C = Year construction will begin.

### **Solid Waste Impact of Capital Projects**

### **Solid Waste**

LF Station Facility Improvements Phs2 - RF062 [ID: 2034]

Allow for fueling at vehicles during inclement weather.

Material Recovery Facility Expansion Phase 2 [ID: 1551]

Expansion and modernization of facility for anticipated growth.

North Route B Recycling Drop-Off Site [ID: 2092]

Improve recycling drop-off service for the north-east side of Columbia

Vehicle Storage Shelters - RF064 [ID: 2035]

Covered parking & block heater outlets for collection vehicles.

Vehicle Wash Bay - RF065 [ID: 2033]

All SW Ops to routinely wash equipment & vehicles

West Broadway Recycling Drop-Off Site - RF071 [ID: 2091]

Improve recycling drop-off service for the west side of Columbia.

(THIS PAGE INTENTIONALLY LEFT BLANK)

### **Solid Waste System Bonds**

### **Debt Service Information**

#### 05/21/12 Special Obligation Refunding Bonds, Series 2012C (Interest rate: 2.00%)

Original Issue - \$2,650,000

Balance As of 9/30/2018 - \$945,000

Maturity Date - 2/1/2021

In May 2012, the City issued \$29,515,000 of Special Obligation Refunding Bonds. A portion of this issue, \$2,650,000 was to currently refund the outstanding portion, \$2,630,000 of the City's Special Obligation Bonds, Series 2001B.

### 12/08/15 Solid Waste System Special Oblig. Refunding Bonds (Interest Rates: 2.00%-5.00%)

Original Issue - \$1,235,000

Balance As of 9/30/2018 - \$665,000

Maturity Date - 2/1/2026

In December 2015, the City issued \$7,080,000 of Special Obligation Revenue Refunding Bonds. A portion of this issue, \$1,235,000 was to currently refund the outstanding portion of, \$1,235,000 of the City's Special Obligation Revenue Refunding and Improvement Bonds, Series 2006 solid waste portions.

### 4/19/17 Solid Waste System Special Oblig. Bonds (Interest Rates: 3.00%-3.375%)

Original Issue - \$5,520,000

Balance As of 9/30/2018 - \$5,315,000

Maturity Date - 2/1/2037

In April 2017, the City issued \$5,520,000 of Special Obligation Revenue Bonds. These bonds were issued to fund the construction of Landfill Cell #6

Note: This statement does not include capital addition, capital project, or debt principal payments.

Operating revenues have exceeded operating expenses for the period from FY 2009 to FY 2019. This is necessary to fund capital projects. In FY 2019, there are increases for landfill fees.

The fund has experienced a positive change in net position for the entire period from FY 2009 to FY 2019, except for FY 2017. The income is used to fund capital projects and ensure the financial stability of the fund.

The Financial Sources and Uses Statement is a management tool which provides a more complete look at the cash and other resources for the operation compared to the expenses and other uses of the operation. This allows management to examine the projected ending cash reserves for the operation compared to a budgeted cash reserve target which provides useful information about the financial health of the fund.

This statement takes information from revenues, expenses, and changes in net position statement and subtracts out non-cash items (depreciation, loss on disposal of fixed assets, and GASB adjustments for interest revenue, pensions, and vacation liabilities). This statement also includes capital item purchases (such as fleet replacements), principal payments, and enterprise revenue that will be used to pay for capital project costs which are reflected on the balance sheet.

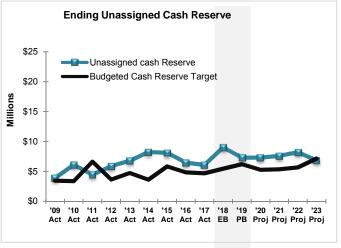

In years where financial uses are above financial sources, there are significant capital project costs. The City must appropriate all of the cost of a capital project before a construction contract can be awarded, even though construction can take more than one year to complete. The City utilizes smaller utility rate increases over time in order to build up balances and then uses those balances to fund some of their capital projects. For FY 2019, financial sources include an increase to landfill rates. A cost of service study is planned for FY 2020 and rates will be adjusted once that information is received.

15.98

9.47

9.58

Ending cash reserves may vary as the fund needs to build up funds for future capital projects. Ending cash is projected to be above the budgeted cash reserve target for FY 2019. The five year forecast includes increasing capital project amounts. Landfill Scale House Relocation and Road Improvement for \$2.25 million in FY 2023 will cause the cash reserves to fall below the budgeted cash reserve target. A cost of service study is planned for FY 2020 and rates will be adjusted after that in order to get the cash reserve up to the budgeted cash reserve target.

### Description

The Mid-Missouri Solid Waste Management District (MMSWMD) provides planning, technical and financial support in the area of waste reduction and recycling for an eight-county region that includes Audrain, Boone, Callaway, Cole, Cooper, Howard, Moniteau and Osage.

### **Department Objectives**

Coordinate and provide technical assistance and educational materials and programs for waste reduction. Monitor grant awards to assure compliance with MDNR requirements.

### Highlights/Significant Changes

- The MMSWMD hosted two district grant workshops in July of 2017 to assist potential grantees in understanding the grant process as well as provided assistance with completing a grant application.
- The MMSWMD supported local governments by organizing and funding an opportunity to dispose of illegally dumped tires from public property and roadways.

### Highlights/Significant Changes (cont.)

- The MMSWMD provided free student led waste audits for regional schools and awarded small dollar sponsorships for waste reduction projects.
- The MMSWMD partnered with the City of Columbia to begin hosting quarterly Fix-it-Fairs. This event brings together volunteers with repair skills with participants interested in learning how to fix their broken household items.
- The MMSWMD awarded \$268,641.78 in grant funding for regional waste reduction projects during FY 2018.
- The MMSWMD, along with the University of Missouri, Boone County, and City of Columbia Public Works and Neighborhood Services, sponsored a one day collection event on June 2, 2018 for scrap tires, electronic waste, appliances and household hazardous waste.

### **Cash Reserve Target**

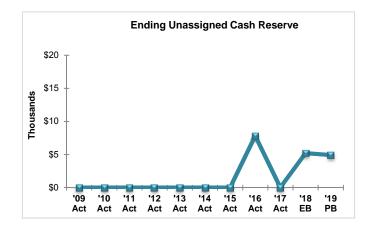

This is a special revenue fund which utilizes grant funds and transfers from the solid waste utility. There is no budgeted cash reserve target for this fund.

# Financial Sources and Uses Mid-Missouri Solid Waste Management District

- For this Special Revenue Fund, all expenses are reimbursed by state grant or the City of Columbia Solid Waste Department. When financial sources differ from financial uses, it is typically a timing issue between when the expense is incurred and reimbursement received.
- The Financial Sources and Uses Statement is a management tool which provides a more complete look at the cash and other resources for the operation compared to the expenses and other uses of the operation. This allows management to examine the projected ending cash reserves for the operation compared to a budgeted cash reserve target which provides useful information about the financial health of the fund.
- This statement takes information from the revenues, expenditures, and changes in fund balance statement and subtracts out non-cash items (depreciation, loss on disposal of fixed assets, and GASB adjustments for interest revenue, pensions, and vacation liabilities). This statement also includes capital item purchases (such as fleet replacements), principal payments, and enterprise revenue that will be used to pay for capital project costs which are reflected on the balance sheet.
- A budgeted cash reserve target is calculated in accordance with the cash reserve policy. In the event of a disaster, these funds would be used to keep the operation going for approximately three months plus fund the next year's infrastructure costs. The budgeted cash reserve target amount is different for each operation and depends on their operational and capital project needs. For Special Revenue Funds, no budgeted cash reserve target is used.

For this Special Revenue Fund, all expenses are reimbursed by state grant or the City of Columbia Solid Waste Department. When financial sources differ from financial uses, it is typically a timing issue between when the expense is incurred and reimbursement received.

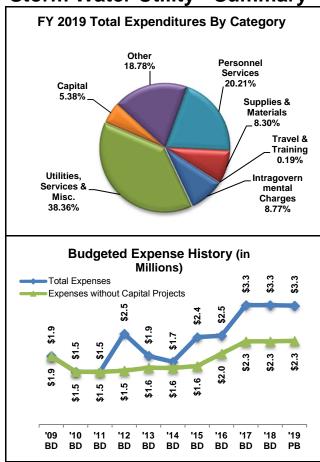

For Special Revenue Funds, no budgeted cash reserve target is used. When there is a positive Ending Unassigned Cash Reserve, it is typically a timing issue between when the expense is incurred and reimbursement received.

#### Description

The Storm Water Utility operates through funding approved by voters in April 1993 and increased by voters in 2015. Funding sources include development charges on new construction and monthly Storm Water Utility charges for all properties. The Storm Water Utility was established to provide funding for the implementation of storm water management projects and maintenance of existing storm water drainage facilities. In 2002, the Storm Water Utility began funding projects, education and outreach activities to address storm water quality and meet regulatory requirements.

### **Department Objectives**

- Assure the movement of emergency vehicles during storm runoff events.
- Protect the public from rapidly flowing storm water runoff or flash floods.
- Minimize losses and property damage resulting from uncontrolled storm water runoff.
- Establish requirements for construction of storm water management facilities in newly developed areas.
- Comply with requirements of the Municipal Separate Storm Sewer System (MS4) permit.

### Highlights/Significant Changes

### <u>Strategic Priority: Infrastructure - Connecting the Community</u>

- FY 2019 reflects a 25% storm water monthly rate increase approved by voters in April 2015. FY 2020 will reflect a 20% rate increase which is the last year of the voter approved rate increases.
- The FY 2019 CIP includes funding for construction of one Capital Improvement Project and the Engineering for one additional Capital Improvement Project with construction to be funded in a future fiscal year.
- In FY 2019 the Sewer and Storm Water Utilities will seek approval from City Council for the Wastewater and Storm Water Integrated Master Plan and begin the implementation. This will require a voter approved rate increase to fund this plan.
- A 0.20 FTE Senior Project Compliance Inspector position has been added for FY 2019 to perform contract management and regulatory complance activities for capital projects.

<sup>^</sup> In FY 2018, 1.00 FTE Eng Specialist/Engineer was added to work on capital projects and 1.00 FTE Storm Water MS4 Technician was added to work on the Integrated Management Plan recommendations.
\* In FY 2019, 0.10 FTE Rate Analyst was reallocated from Sewer and Solid Waste to Storm Water.

<sup>+</sup> In FY 2019, 0.20 FTE Senior Project Compliance Inspector was added due to increased workload, contract management and regulatory compliance

### **Major Projects**

- Storm water system improvements at 9th and Elm Street and Hitt and Elm Street funded by the Storm Water Utility were completed in FY 2018 with the Flat Branch Relief Sewer project. Improvements addressed failing infrastructure in the downtown area.
- Construction of the Manor Drive storm water improvements were completed in FY 2018.
- Construction of the Sinclair Road at Mill Creek culvert replacement was completed in FY 2018. This project replaced failing infrastructure and improved the culvert to reduce the incidence of street flooding.
- Design of the Quail Drive storm water improvement project is anticipated for FY 2019. This project will address flooding and failing infrastructure issues.
- Construction of the Garth at Oak Tower Infrastructure Improvements is expected to begin in FY 2019.
- Support of the Collaborative Adaptive Management process through the funding of CAM projects as recommended by the Stakeholders and approved by Council. The El Chaparral Riparian Restoration project was recommended by the Stakeholders and approved by Council in early FY 2018. Construction of the project will be completed in FY 2018.
- Construction of Hirth Avenue Storm Water improvement project is expected to be completed in FY 2019. It will reduce incidence of structure flooding.

### Fiscal Impact

FY 2019 reflects a 25% storm water monthly rate increase approved by voters in April 2015. This rate increase will fund construction of these projects.

# **Storm Water Impact of Capital Projects**

# 2302 Business 70 East [ID: 1372]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets.

#### Alan Lane [ID: 870]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets.

#### Aldeah & Ash Storm Pipe Rehab - SS123 [ID: 1868]

none

### Bourn Avenue [ID: 1623]

Reduction in traditional structural maintenance. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

## Braemore Drainage [ID: 817]

Reduce street flooding frequency and traditional structural maintenance. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

#### Bray/Longwell Drainage [ID: 818]

Reduce maintenance calls and flooding issues.

#### Calvert Drive - SS117 [ID: 1612]

Increase in regular landscape or cleaning maintenance for water quality improvements installations.

#### Capri Estates Drainage [ID: 828]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

#### Crestridge Drive Culvert Replacement [ID: 2047]

Reduce street flooding and maintenance calls.

## East Downtown [ID: 1613]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

D = Year being designed; C = Year construction will begin.

For projects planned beyond five years, please refer to the City's Capital Improvement Plan Document.

#### **Storm Water**

El CHaparral Riparian Restoration [ID: 2074]

Some maintenance while trees establish, periodic cleaning of drainage pipe inlet and outlet.

Flat Branch System Inventory Model [ID: 1609]

Provide planning information.

Garth @ Oak Tower SS110 [ID: 819]

None

Garth-Jewell [ID: 1617]

Upgrade failing infrastructure.

Gillespie Bridge Road [ID: 1628]

Reduce flooding and regular maintenance issues for cleaning debris.

Grasslands-Brandon Drainage [ID: 830]

Reduce street flooding issue. Increase in regular landscape or cleaning maintenance if water guality improvements are installed.

Greenwood South - SS140 [ID: 1631]

Reduce flooding issues and regular maintenance issues concerning sinkholes, erosion, failing pipes and inlets.

Greenwood Stewart Phase 2 SS093 [ID: 1615]

Reduction in traditional structural maintenance. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Hickman & 6th & 7th - SS134 [ID: 1618]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Hinkson Avenue [ID: 1206]

Reduction in traditional structural maintenance. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Hinkson Bacteria Assessment - SS126 [ID: 1947]

none

Hirth Ave - SS142 [ID: 2070]

None to minimal

Hitt and Elm SS099 [ID: 1373]

Less maintenance. Will avert emergency repair.

Kelly Detention Retrofit - SS108 [ID: 1420]

Increased maintenance to remove captured pollutants.

Lakshire Estates Lake Modification [ID: 1622]

Will need to negotiate maintenance requirements with homeowners.

Leawood Subdivision [ID: 1627]

Improved system requires less regular cleaning, but there will be more to maintain. Maintenance activity for water quality improvements are unknown.

Manor Drive - SS129 [ID: 1915]

Replacing existing system, maintenance will be similar or less.

Martinshire Drive [ID: 820]

Reduce flooding issues. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Mary Jane Jamesdale [ID: 1619]

Reduction in street flooding and traditional structural maintenance. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Mill Creek Detention Retrofits [ID: 1625]

Will require maintenance agreement with homeowners association so they will maintain.

Mill Creek Phase 3 - SS111 [ID: 1620]

Reduction in street flooding issues. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Nebraska Avenue [ID: 1616]

Reduce street flooding issues. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Nifong & Bethel Drainage Project - SS105 [ID: 1475]

Reduce flooding issues. Increase in landscape maintenance during establishment.

#### **Storm Water**

Ninth and Elm Storm Drain Replacement - SS121 [ID: 1889]

Replace failed drainage system

Old Plank Storm Drainage - South Side [ID: 833]

Reduction in flooding issues.

Parkade Blvd and Plaza [ID: 1630]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Pear Tree Circle Storm Drainage [ID: 834]

Reduce flooding issues. Increase to numbers of structures and pipes to be maintained.

Proctor Drive [ID: 871]

Reduction in street flooding issues.

Quail Drive - SS067 [ID: 821]

Reduce flooding issues and regular maintenance issues concerning sinkholes, failing pipes and inlets. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Rangeline Street Smith Street [ID: 1478]

Reduction in maintenance. Less labor, materials and equipment costs to repair previously inadequate facilities.

Rockhill Rd [ID: 873]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets. Water quality improvements will require maintenance.

Rockingham - E. Briarwood [ID: 1626]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Rollins Rd at Rock Creek - SS130 [ID: 1364]

Less maintenance. Will avert emergency repair

Rollins/Cowan/Ridge Drainage [ID: 872]

Reduction in flooding issues and traditional structural maintenance.

Royal Lytham - Fallwood - SS090 [ID: 815]

Reduction in flooding issues and maintenance calls. Increase in regular landscape or cleaning maintenance if water quality improvements are installed Sappington Drainage [ID: 823]

Reduce flooding issues regular maintenance issues concerning sinkholes, failing pipes and inlets.

Seventh and Locust [ID: 1374]

Reduction in street flooding issues and street maintenance. Increase in regular landscape or cleaning maintenance if water quality improvements are installed

Sexton Road at Jackson [ID: 824]

Reduction street flooding issues and traditional structural maintenance.

Sexton/McBaine Drainage [ID: 825]

Reduction in street flooding issues.

Sinclair Culvert at Mill Creek - SS131 [ID: 1914]

Upgraded box will require less maintenance due to clogging.

Sixth & Elm Storm Drain Replacement - SS109 [ID: 1532]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets.

Stewart Park Drainage [ID: 835]

Reduce flooding and erosion issues. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Vandiver/Sylvan Storm Drainage [ID: 826]

Reduction in traditional structural maintenance. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Wayne Road [ID: 837]

Reduce regular maintenance issues concerning sinkholes, failing pipes and inlets.

West Worley Storm System Replacement - SS119 [ID: 1882]

Reduce potential for pavement failure.

Wilson Ross - SS112 [ID: 1608]

Reduce maintenance calls and street flooding.

# Storm Water Annual and 5 Year Capital Projects Proposed Funding Source FY 2019 FY 2020 FY 2021 FY 2022 FY 2023 Cost D C

# **Storm Water Impact of Capital Projects**

## **Storm Water**

Woodland-Northridge Drainage [ID: 838]

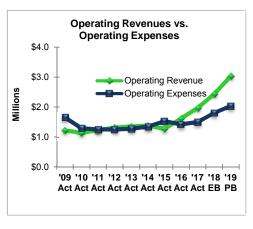

Reduce flooding and regular maintenance issues concerning sinkholes, failing pipes and inlets. Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Worley Again East Phase I [ID: 1629]

Increase in regular landscape or cleaning maintenance if water quality improvements are installed.

Operating revenues began to sharply rise after FY 2015 due to voter approved utility rate increases. The additional revenue will be used for capital additions and projects.

Due to the increase in fund revenue, the fund has experienced a positive change in net postiion after FY 2015. The income is being used for capital additions and projects.

The Financial Sources and Uses Statement is a management tool which provides a more complete look at the cash and other resources for the operation compared to the expenses and other uses of the operation. This allows management to examine the projected ending cash reserves for the operation compared to a budgeted cash reserve target which provides useful information about the financial health of the fund.

This statement takes information from the revenues, expenses, and changes in net position statement and subtracts out non-cash items (depreciation, loss on disposal of fixed assets, and GASB adjustments for interest revenue, pensions, and vacation liabilities). This statement also includes capital item purchases (such as fleet replacements), principal payments, and enterprise revenue that will be used to pay for capital project costs which are reflected on the balance sheet.

In years where financial uses are above financial sources, there are significant capital project costs. The City must appropriate all of the cost of a capital project before a construction contract can be awarded, even though construction can take more than one year to complete. The City utilizes smaller utility rate increases over time in order to build up balances and then uses those balances to fund some of their capital projects. For FY 2019, financial sources include a 25% voter approved rate increase. The last voter approved increase of 20% will occur in FY 2020. Voter approved rate increases will be required to implement the Integrated Master Plan and these have not been included in this forecast.

Ending cash reserves may vary as the fund needs to build up funds for future capital projects. Ending cash is projected to be above the budgeted cash reserve target for FY 2019 through FY 2023. Over the next five years, cash reserves will be used down to fund capital projects. The projects and required rate increases to fund the integrated management plan are not yet included in future years.

# **Storm Water Utility Fund**

	,		FY 2018	FY 2019	
	Chapter/	Date Last	Ess	<b>F</b>	Effective
Storm Water Development charge Storm water development charge for issuance of building permit for new construction	<b>Section</b> 26-170	Changed	Fee	Fee	Date
Category: - Single-family residences; duplexes		02-15-1993	\$0.09 per sq. ft of total floor area of new construction	\$0.09 per sq. ft of total floor area of new construction	
- Multiple-family buildings; offices; schools; churches		02-15-1993	\$0.16 per sq. ft of total floor area of new construction	\$0.16 per sq. ft of total floor area of new construction	
- Commercial; industrial; use categories not listed above		02-15-1993	\$0.195 per sq. ft of total floor area of new construction	\$0.195 per sq. ft of total floor area of new construction	
Storm water utility charge Multiple-family buildings having more than four units; single-family residences having a main floor area less than 750 sq. ft.	12A-148	10-01-17	\$1.27 per unit	\$1.59 per unit	10-01-18
Multiple-family buildings having four or less units; mobile homes; single-family residences having a main floor area of from 750 sq. ft. to 1,250 sq. ft.	12A-148	10-01-17	\$1.66 per unit	\$2.08 per unit	10-01-18
Single-family residences having a main floor area of from 1,251 sq. ft. to 2,000 sq. ft	12A-148	10-01-17	\$2.25 per unit	\$2.81 per unit	10-01-18
Single-family residence having a main floor area more than 2,000 sq. ft	12A-148	10-01-17	\$2.64 per unit	\$3.30 per unit	10-01-18
All non-residential uses of developed land	12A-148	10-01-17	\$7.81 or \$0.078 per 100 sq. feet impervious area, whichever is greater	\$9.77 or \$0.098 per 100 sq. feet impervious area, whichever is greater	10-01-18
Billing practices Mixed Multiple-family and Nonresidential use. Where a parcel of land or single structure is developed with both multiple- family and nonresidential uses, the storm water utility charge shall be billed to the owner or single entity representing multiple owners. The director, in determining the billing category of land to use for the monthly storm water utility charge, shall compute the charge by comparing the total number of multiple family units charge to the total non-residential uses charge and shall apply whichever charge is greater	12A-151(d)	09-21-15			

www.CoMo.gov

**Accrual Basis of Accounting -** Internal Service Fund and Enterprise Fund revenues and expenses are recognized on the accrual basis. Under this method of accounting, revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period occurred.

**Account Number** - A system of numbering or otherwise designating accounts, entries, invoices, vouchers, in such a manner that the number sequence used quickly reveals certain required information.

**Adopted Budget** - Refers to the budget amount as originally approved by the City Council at the beginning of the fiscal year.

**Anticipated Expenditures and Revenues** - The expenditures or revenues that are expected by the close of the budget year/fiscal year.

**Appropriation -** The legal authorizations made by the City Council (who approve department budgets) to the departments, offices and agencies of the City, allowing the departments to make expenditures and incur obligations for specific purposes within the amounts approved.

**Assessed Valuation -** This is the value of property set for tax purposes. The assessed value is set by the County Assessor, who is charged with determining the taxable value of property according to a formula set by the State of Missouri.

**Balanced Budget -** a budget in which revenues are equal to expenditures. Thus neither a budget deficit nor a budget surplus exists.

**Bond -** a debt security, under which the issuer owes the holders a debt and is obliged to pay them interest or to repay the principal at a later date, termed the maturity date.

**Budget -** The financial plan for the operation of the City for the fiscal year.

**Budgetary Control** - The control and management of a governmental or enterprise fund/entity in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

**Capital -** An asset item with a value of \$5,000 or more and is expected to have an estimated life of greater than one year.

**Capital Projects Fund -** This fund was established to account for financial resources to be used for the acquisition or construction of major capital facilities or improvements within the general government funds.

**Debt Service Fund** - The debt service funds are used to account for the accumulation of resources and payment of general long-term debt principal and interest.

**Deficit -** An excess of the liabilities of a fund over its assets. Also, the excess of expenditures over revenues during the budget year.

**Department -** The Department is the primary unit in City operations. Each is managed by a department director. Departments are generally composed of divisions which share a common purpose or which perform similar duties.

**Depreciation -** The decrease in value of physical assets due to use and the passage of time. In accounting for depreciation, the cost of a fixed asset is prorated over the estimated service life of such an asset, and each year is charged with a portion of such cost. Through this process, the entire cost of the asset is ultimately charged off as an expense.

**Encumbrance -** Commitment for unperformed contracts for goods or services. An amount of money committed and set aside, but not yet expended, for the purpose of a specific good or service.

**Enterprise Funds -** These funds are used to account for resources committed to self-supporting activities of governmental units that render services to the general public on a user-charged basis. Budgeted enterprise funds include: Water Utility, Electric Utility, Sanitary Sewer Utility, Regional Airport, Transit, Solid Waste Collection, Parking Facilities, Recreation Services, Railroad, and Storm Water Utility.

**Expendable Trust Fund** - A trust fund whose principal and earnings may be expended. The only expendable trust fund that is budgeted is the Contributions Fund.

**Expenditure -** An actual obligation incurred for goods or services received whether or not yet paid by a City check or by an interfund transfer for internal City bills.

**Fiscal Year -** The period used for the accounting year. The City of Columbia has a fiscal year of October 1st through the following September 30th.

**Fund -** A fund is a self balancing set of accounts designed to track specific revenues and the uses of those revenues.

**Fund Balance -** An accumulated excess of revenues over expenditures. Any amount left over after expenditures are subtracted from resources is then added to the beginning fund balance each year. Each fund begins and ends each year with a positive or negative fund balance. The exception to this is Enterprise Funds and Internal Service Funds which are accounted for in the same manner as private businesses and record retained earnings as opposed to a fund balance.

**Fund Equity** - Additional funds generated by the cost of operating as internal service funds which is used to offset charges assessed to other internal departments.

**Fund Type -** In governmental accounting, all funds are classified into seven generic fund types: General, Special Revenues, Debt Service, Capital Projects, Enterprise, Internal Service, and Trust and Agency.

**GAAP - Generally Accepted Accounting Principals** 

**General Fund** - The fund used to account for all City activities not required to be accounted for elsewhere. The General Fund of a governmental unit is made up of the resources available for the purpose of carrying on the unit's operating activities. The General Fund includes the following departments: City Council, City Clerk and Elections, City Manager, Municipal Court, Human Resources, Law, Community Development, Economic Development, Finance, Fire, Police, Health, Joint Communications, Emergency Management, Community Services, Divisions of Public Works (Administration and Engineering, Streets, Traffic, and Protective Inspection), and Divisions of Parks and Recreation (Administration, C.A.R.E. Program, and Parks).

**General Obligation Bonds** - Bonds backed by the full faith and credit of the City.

**Governmental/Trust Funds** - Includes the General Fund, Expendable Trust Funds, Non-Expendable Trust Funds, Special Revenue Funds, and Capital Project Fund.

**Legal Debt Margin** - The amount of additional debt the City may legally issue. It is currently 20% of the assessed value less general obligation debt currently outstanding.

**Intergovernmental Revenues -** Revenues from other governments in the form of grants, entitlement, shared revenues or payments in lieu of taxes.

**Internal Service Funds -** These funds are used to finance, administer, and account for the financing of goods and services provided by one department to other departments of the City on a cost reimbursement basis. Budgeted internal service funds are Fleet Operations, Custodial and Maintenance Services, Finance Utility Customer Service, Information Technologies, GIS Fund, Public Communications, Employee Benefit Fund, and Self-Insurance Reserve Fund.

**Intragovernmental Charges -** Charges assessed to all other departments i.e. Enterprise, Special Revenue, Governmental and other Internal Service funds for services provided to those various departments. Some of the services include, delivery of mail, vehicle repair, custodial and building maintenance & computer support.

**Major Fund** - funds whose revenues, expenditures/expenses, assets, or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental or enterprise funds and at least 5 percent of the aggregate amount for all governmental and enterprise funds.

**Modified Accrual Basis -** General Fund, Special Revenue, Debt Service, Capital Projects, and Expendable Trust Funds are recognized on the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they become both available and measurable. Expenditures are recognized in the accounting period in which the fund liability is incurred. This basis measures resources available to the City.

Net Assets - A funds total assets less all liabilities.

**Net Income -** The excess of revenues over expenses. Net income is calculated for Internal Service Funds and Enterprise Funds. Net income is not calculated for a governmental fund.

Net-Working Capital - The total of all current assets less the total of all current liabilities.

**Non-Expendable Trust Funds -** A trust fund whose principal must be preserved intact. Revenues earned on the principal may be expended.

**Non-Operating Expenses** - Expenses incurred by Enterprise and Internal Service Funds that are not directly related to the fund's primary service activities. Examples of non-operating expenses include Interest Expense, Loss on Disposal of Fixed Assets, and Miscellaneous Expenses.

**Non-Operating Revenues -** Enterprise and Internal Service Fund revenues that are not directly related to the fund's primary service activities. Examples of non-operating revenues include Interest revenue, gain on disposal of fixed assets, and miscellaneous revenue.

**Operating Budget -** The annual budget and process which provide a financial plan for the operation of government and the provision of services for the year. Excluded from the operating budget are capital projects which are determined by a separate, but interrelated process.

**Property Tax -** This refers to the property tax placed on property. The tax income is determined by multiplying the tax rate by each \$100 of assessed valuation.

**Proposed Budget -** The recommended City budget submitted by the City Manager to the City Council in late July each year.

**Retained Earnings** - Profits generated by enterprise funds that are either reinvested into the fund or are kept as a reserve for specific objectives - such as to pay off a debt or purchase capital assets.

**Revenue Bonds** - Bonds whose principal and interest are payable exclusively from earnings of an enterprise fund. In addition, these bonds may contain a mortgage on the enterprise fund's property.

**Revenues -** Money generated through taxes, charges, licenses and other sources to fund City operations.

**Special Obligation Bonds** - Special obligations of the City. The payment of the principal of and the interest on the Bonds is subject to an annual appropriation by the City. The City is not required or obligated to make any such annual appropriation.

**Special Revenue Funds -** These funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. Budgeted special revenue funds include: Convention and Tourism Fund, Transportation Sales Tax Fund, Community Development Block Grant Fund, Cultural Affairs Fund, Parks Sales Tax, Capital Impr. 1/4 Cent Tax, Special Road District Tax Fund, and Public Improvement Fund.

**Subsidy** - Legally authorized subsidy from a fund receiving revenue to the fund through which the resources are to be expended.

**Supplementals** - A list of requests by each department which include computers, all other equipment, vehicles, trucks (capital items) and personnel. Requests are listed in priority order and then reviewed and amended by the City Manager and the Department Director based on the budget year's spending limitations.

**Transfer -** Legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended.

**Trust Funds -** These funds are used to account for assets held by the government in a trustee capacity. Trust Funds are composed of two main types, Non-Expendable and Expendable. The only Budgeted Trust Fund is the Contributions Fund.

**User Charges or Fees -** The payment of a charge or fee for direct receipt of a service such as; admission into a swimming pool, health services or police and fire services.

**Utility Charges -** applied based on the consumption of a commodity - charges for sewer, water and publicly provided electricity etc.

**ACA** - Affordable Care Act

**CAFR** - Comprehensive Annual Financial Report

**GIS** - Geospatial Information Systems

**PIOs** - Public Information Specialists
