Council Meeting Date: October 1, 2018

Re: Authorizing Amendment No. 2 with Bartlett and West, Inc. for the Nifong Intersections Improvement Project

## Executive Summary

Authorizing the City Manager to execute Amendment No. 2 of the professional engineering services agreement with Bartlett and West for additional services relating to the Nifong Intersections Improvement project (Nifong Boulevard/Sinclair Road and the Vawter School Road/Old Mill Creek intersections). The additional design services are related to the Consolidated Public Water Supply District No. 1 water line relocation.

## Discussion

On June 6, 2016, Council adopted Resolution 67-16 authorizing a professional engineering services agreement with Bartlett and West, Inc. for Phase 1 design services relating to the Nifong Boulevard/Sinclair Road and the Vawter School Road/Old Mill Creek intersections improvement. On December 18, 2017, Council authorized amendment #1 for Phase 2 design services related to completion of right of way plans and final plans for the project.

As part of the development of final plans for the project, it has been determined that the Consolidated Public Water Supply District No. 1 waterline needs to be relocated for the construction of the roundabout. The proposed Amendment No. 2 is for engineering design, permitting, and construction oversight of the waterline relocation. The existing waterline is located in a private easement.

Amendment No. 2, in the amount of \$8,900, will increase the engineering design contract to a not to exceed amount of \$340,555.14, and is funded by the 0.25% Capital Improvement Sales Tax. Construction of this project is planned for the summer of 2019.

## Fiscal Impact

Short-Term Impact: Amendment No. 2 in the amount of \$8,900 will be funded by the 0.25% Capital Improvement Sales Tax, and brings the total not to exceed contract amount with Bartlett & West to \$340,555.14.

Long-Term Impact: Roundabout maintenance is estimated at \$2000 per year.

## Strategic & Comprehensive Plan Impact

### Strategic Plan Impacts:

Primary Impact: Infrastructure, Secondary Impact: Secondary, Tertiary Impact: Tertiary
