City of Columbia On Behalf of the Columbia/Boone County Public Health and Human Services Department ATTN: City Clerk 701 Broadway E Columbia, MO 65201

Dear City of Columbia:

Thank you for agreeing to assist the Bureau of Reportable Disease Informatics (BRDI) and the Bureau of HIV, STD, and Hepatitis (BHSH) within the Missouri Department of Health and Senior Services (DHSS) with organizing and engaging a stakeholder meeting in your region in support of the development of new vulnerability assessments related to opioid overdoses and bloodborne infections associated with nonsterile drug injection. This stakeholder meeting will provide input on the vulnerability assessments' design, support development of data use agreements (if applicable), and inform the use of the assessments' findings to target services that will maximally reduce risk of overdoses and risk of bloodborne infection spread through nonsterile drug injection. Engagement with a broad range of stakeholders is critical to the success of this project.

BRDI will provide a fee of \$3,000 for your work on the above referenced project. The project period begins with the execution of this letter of agreement and ends August 31, 2019. During this time period, your agency will be responsible for:

- Participating in conference calls, WebEx meetings, e-mail discussions, etc., with DHSS staff throughout the project period in order to plan for activities, report progress on project activities, and ensure continuing feedback from your agency regarding the vulnerability assessments project. You may also be asked to facilitate continued communication between DHSS and stakeholders in your region throughout the project period, as needed.
- Identifying and recruiting appropriate stakeholders in varied roles from throughout the region to participate in a regional stakeholder meeting.
- Identifying and procuring an appropriate location for a meeting of stakeholders and DHSS representatives to provide input on the vulnerability assessments' design, support development of data use agreements (if applicable), and inform the use of the assessments' findings to target services that will maximally reduce risk of overdoses and risk of bloodborne infection spread through nonsterile drug injection.
- Selecting a date and time for the regional stakeholder meeting, in collaboration with DHSS and a facilitator. DHSS will provide the facilitator to lead the meeting.
- Arranging and paying for a meal to be provided at the regional stakeholder meeting in your region. No additional funding beyond this letter of agreement will be provided for the meal.
