**Comments:** Incorporate the fee in lieu paid by the apartment complex for the sidewalk waiver. A bulb out by the big tree. There is failing pavement with possible culvert issues by the creek that should be assessed if it can be incorporated in the project. Could put a small curve in the lane.

**Comments:** Preference for speed humps or crosswalks.

We regularly see and hear vehicles speeding on Primrose. We have five young grandchildren and a basketball court next to Primrose. We definitely see a need for options that would slow down traffic. School buses stop along Primrose to pick up and drop off children during the school year. Speeding occurs in the straight stretch between Garden and Sunflower. We live at the corner of Primrose & Iris. We do not want sidewalks along Primrose. Resurfacing of Primrose at the same time would save cost, and it is badly needed as

### Comments:

- ① 4 way stop @ Primrose + Garden Dr.
- ② Consider the school buses stopping to ~~unload~~ <sup>unload</sup> children - need crosswalks.
- ③ Speed bumps may cause people to take another exit from subdivision.

**Comments:** lots of wrecks before bend, but trees <sup>at creek</sup>  
wrecks because speeds too high. Kids can't play  
in front yard. No sidewalks. No snow cur  
control. Cars can't get up or down hill. People  
leave cars and block drives.  
Recommend speed bumps at creek area
