Re: Authorizing a License Agreement with Moberly Area Community College to utilize a tract of land at Columbia Regional Airport for training.

## Executive Summary

Authorizing a license agreement with Moberly Area Community College (MACC) to utilize a tract of land approximately 300' x 500' for the purpose of providing a Class A commercial driver's instruction and training program at Columbia Regional Airport.

## Discussion

MACC desires to use a portion of property located near the intersection of Angel Lane and Airport Drive (see attached location diagram) to sponsor a Class A commercial driver's instruction and training program for truck driving education for a three year period. The City could benefit from this program by having access to speak to classes about City employment opportunities, reserving seats in a class if desired, and the opportunity to recruit potential employees from the classes. This workforce development partnership will help with the shortage of commercial drivers both locally and nationwide.
