Re: Municipal Agreement with the Missouri Department of Transportation (MoDOT) regarding improvements to the I-70 corridor from just east of Route B to just east of Route 54 in Kingdom City and includes improvements to the US 63 Connector and interchange.

Executive Summary

Authorize the City Manager to execute the agreement MoDOT has prepared for the City of Columbia regarding improvement to the I-70 corridor from just east of Route B to just east of Route 54 in Kingdom City and includes improvements to the US 63 Connector and interchange.

Discussion

MoDOT is pursuing improvements to the I-70 corridor from just east of Route B to just east of Route 54 in Kingdom City and includes improvements to the US 63 Connector and interchange.

MoDOT acknowledges the importance of bicycle and pedestrian facilities to the City. They will encourage the Design-Build Contractor to consider connectivity for pedestrian and bicycle movement through the interchange and in the surrounding area when designing the project. Detailed plans for pedestrian and bicycle improvements to the I-70 and US 63 Interchange area will be provided to the City for review, and the City may provide MoDOT with comments for consideration.

The City will grant MoDOT the right to use the right-of-way of public roads and streets owned by the City in the location of the improvement. The City will allow temporarily closure of all streets or roads, or parts thereof, which may be necessary to permit the construction of the project in accordance with the detailed plans. The City will be notified a minimum of ten (10) calendar days in advance of any road or street closures during construction. Local traffic may be allowed, if practical, at the discretion of MoDOT's Project Director.

Fiscal Impact

Short-Term Impact: Some possible utility relocation costs for utilities within existing MoDOT right of way.

Long-Term Impact: The City will delegate the maintenance of any new sidewalks following construction as we do currently on City projects by ordinance.

Strategic & Comprehensive Plan Impact

Strategic Plan Impacts:

Primary Impact: Reliable and Sustainable Infrastructure, Secondary Impact: Safe Community, Tertiary Impact: Resilient Economy

Comprehensive Plan Impacts:

Primary Impact: Mobility, Connectivity, and Accessibility, Secondary Impact: Infrastructure, Tertiary Impact: Land Use & Growth Management

Legislative History

Date	Action
06/20/2023	PH25-23 Consider approval of enhancement design elements associated with Missouri Highways and Transportation Commissions' Interstate 70 and U.S. Highway 63 connector reconfiguration project.
06/05/2023	R83-23 Setting a public hearing: consider approval of enhancement design elements associated with Missouri Highways and Transportation Commissions' Interstate 70 and U.S. Highway 63 connector reconfiguration project.

Suggested Council Action

Authorize the City Manager to execute the agreement with MoDOT.
