

TO: CATSO Technical Committee

FROM: CATSO Staff

SUBJECT: CATSO Unfunded Needs List Review and Approval

DATE: February 5, 2025

Attached is a draft revision of the Unfunded Needs List for the Columbia metropolitan planning area. The MoDOT Central District office has requested that CATSO submit a revised list for 2025 by March 3.

The majority of the projects from the 2024 Unfunded Needs list remain as they have not been funded or scheduled for implementation at this time.

One change is to Project # 12 in the Additional category of the list. That is the sidewalk construction project on the south side of Broadway from West Boulevard to Stadium Boulevard (Route 740). Transportation Alternative Program (TAP) funding has been received for the West Boulevard to Maplewood portion, but the section from Manor Drive to Stadium Boulevard remains unfunded and as is still included as an Additional need.

Please review the list for suggested updates or edits. After discussion and any suggested revisions from the Committee, pass a motion recommending that the CATSO Coordinating Committee give approval to the revised list. This will allow CATSO staff to forward the list to the MoDOT Central District Office by Monday, March 3.
