Comments: The Draft ordinance for surveillance oversight is
missing multiple important sections from CCOPS. I'm
happy to point out the notable omissions.
Section 21-65 is notably lacking my details on report content.

Comments: 1. Transparency was severely lacking in
 this, Public needs more time to review policy.
 2. Flock is the wrong vendor for this.
 3. This could empower bad actors in gov't as after those
 travelling out of state for abortion services hit a minor case.

NO
on
Flock

Comments: *I feel we really need to get Flock to help decrease the time police officers have to spend to track down crime/offenders. It'll help the huge lack of enough police we have. Thank you!*

Comments:

I'm strongly in favor of investments that will help solve
& decrease crime in Columbia. CPD officers need help
in solving crime. I'm strongly in favor of the Flock
Cameras.
