2. To present the annual CAAP report, with policy and budget priorities, to city council for acceptance in January.
3. To identify opportunities for and barriers to equitable implementations of CAAP strategies.
4. To review annual greenhouse gas emissions inventory for progress on meeting greenhouse gas emission reduction goals.

6. To educate and engage the public on commission priorities.

The annual CAAP report referenced in item 2 above is supported by information not typically available until the end of the first quarter or beginning of the second quarter of the new calendar year. In order to include this information and analysis in the report and meet the reporting date, the language in item 2 should read:

2. To present the annual CAAP report, with policy and budget priorities, to city council for acceptance no later than June 30th.
