Subject: 3 Things About Earth Day 2026
To:

Hello!

This year, the Columbia Area Earth Day Festival will be held on April 26th (rain date May 3rd). I will be sending out booth information this week for Eco Avenue, the sustainability education area of the festival, by the end of the week. If you are interested, please get those back to me before I open up regular booth sales on Feb. 1. We have a limited number of Eco Avenue booths, so I would like to see how we can accommodate everyone.

The Earth Day Coalition is looking for members who are interested in the educational opportunities presented at the festival. If you have ideas you would like to share about displays in the park, workshops, or organization of the event, please contact coordinator@columbiaearthday.org to find out when the next meeting will be held. We meet about once a month, but maybe every week when we get about 3 weeks out. I am also looking for **Earth Day Interns** if anyone knows anyone needing an internship for environmental degrees (or anything to do with event planning, environmental degrees, or business marketing or management).

Earth Day Sponsors are needed to help support the festival! If your organization or business would like to sponsor the event in one of various ways, please see the attached info. If you have interest, please respond as soon as you can so we can be sure to include your logo on all of the information that goes out. We are currently in the process of creating new vendor applications, so be quick to get in on those! If you would like to sponsor, pick a level and I will get back to you with a contract.
