Re: Report: Appointment of Stakeholder to the Hinkson Creek Collaborative Adaptive Management Stakeholder Committee

Executive Summary

This report discusses the appointment of a new member to the Hinkson Creek Collaborative Adaptive Management Stakeholder Committee to fill a vacant position.

Discussion

In April 2012, the City agreed to the Collaborative Adaptive Management process (CAM) to address the Total Maximum Daily Load (TMDL) for Hinkson Creek. The CAM is a five party agreement negotiated to settle the Hinkson Creek TMDL and includes the City, Boone County, the University of Missouri (MS4 - municipal separate storm sewer system - partners), the United States Environmental Protection Agency (EPA) and the Missouri Department of Natural Resources (DNR). The CAM agreement allows a wide range of activities to contribute to reaching water quality goals. The goal of the CAM agreement is to find the most effective approach or approaches for improving Hinkson Creek rather than committing to one predetermined approach which may not be as effective.

The Collaborative Adaptive Management Agreement for Hinkson Creek created a Stakeholder Committee, an Action Team and a Science Team. The current Stakeholder Group consists of Karl Skala (City), Justin Aldred (County), Todd Houts (University of Missouri) and members from the following groups: Missouri Department of Natural Resources, Chamber of Commerce, Central Missouri Development Council, Columbia Public Schools, Sierra Club, Smart (Sustainable) Growth, Stream Teams, Soil and Water Conservation Board, Large Scale Commercial property representative, Agriculture property representative and two general property owners who live in the watershed. The Environmental Protection Agency provides a facilitator for the Stakeholder Committee. The represented groups for the Stakeholder Committee were agreed to by the Columbia City Council, County Commission and University of Missouri.

The Stakeholder Committee meets four to six times per year. There have been challenges achieving a quorum and vacancies exacerbate the issue. In September 2021, two new members were appointed to represent a sustainable growth perspective, Leanne Tippet Mosby, and construction or development, Susan Hart. Currently, the position for the Large Scale Commercial Property representative is vacant. Rob Wolverton is the owner of R. Anthony Development Group LLC, and has agreed to fill the vacancy. The CAM stakeholders met on December 13, 2022, to discuss the proposed stakeholder, and all agreed to move forward with appointing Rob Wolverton to the Stakeholder Committee.

Fiscal Impact

Short-Term Impact: none

Long-Term Impact: none

Strategic & Comprehensive Plan Impact

[Strategic Plan Impacts:](#)

Primary Impact: Organizational Excellence, Secondary Impact: Secondary, Tertiary Impact: Tertiary

[Comprehensive Plan Impacts:](#)

Primary Impact: Land Use & Growth Management, Secondary Impact: Secondary, Tertiary Impact: Tertiary

Legislative History

Date	Action
09/07/2021	REP66-21 Appointment of Stakeholders to the Hinkson Creek Collaborative Adaptive Management Stakeholder Committee.
08/17/2020	REP46-20 Collaborative Adaptive Management (CAM) Progress Report 2017-2018 from the CAM Stakeholder Committee.
05/04/2020	B98-20 Authorizing an intergovernmental cooperative agreement with Boone County, Missouri and The Curators of the University of Missouri for a chemical analysis project as it relates to the Hinkson Creek collaborative adaptive management (CAM) implementation process; amending the FY 2020 Annual Budget by appropriating funds.
04/20/2020	B83-20 Authorizing an intergovernmental cooperative agreement with Boone County, Missouri and The Curators of the University of Missouri for a synoptic sampling project as it relates to the Hinkson Creek collaborative adaptive management (CAM) implementation process; amending the FY 2020 Annual Budget by appropriating funds.

04/17/2012	Res 205-12 Temporary Appointment to Action Team Ord 21291 Authorizing a collaborative adaptive management implementation schedule and agreement for Hinkson Creek TMDL

Suggested Council Action

If Council agrees with this report, a motion should be made that City Council concurs with the appointment of Rob Wolverton to the Hinkson Creek Collaborative Adaptive Management Stakeholder Committee. This motion should include that staff be instructed to notify the other agencies party to this agreement of the appointment.
